FIX DEMO · MERMAID PIE

A pie you can read from the back row.

PIE BESIDE A CALLOUT · THE CASE THAT SHIPPED AT 8PX

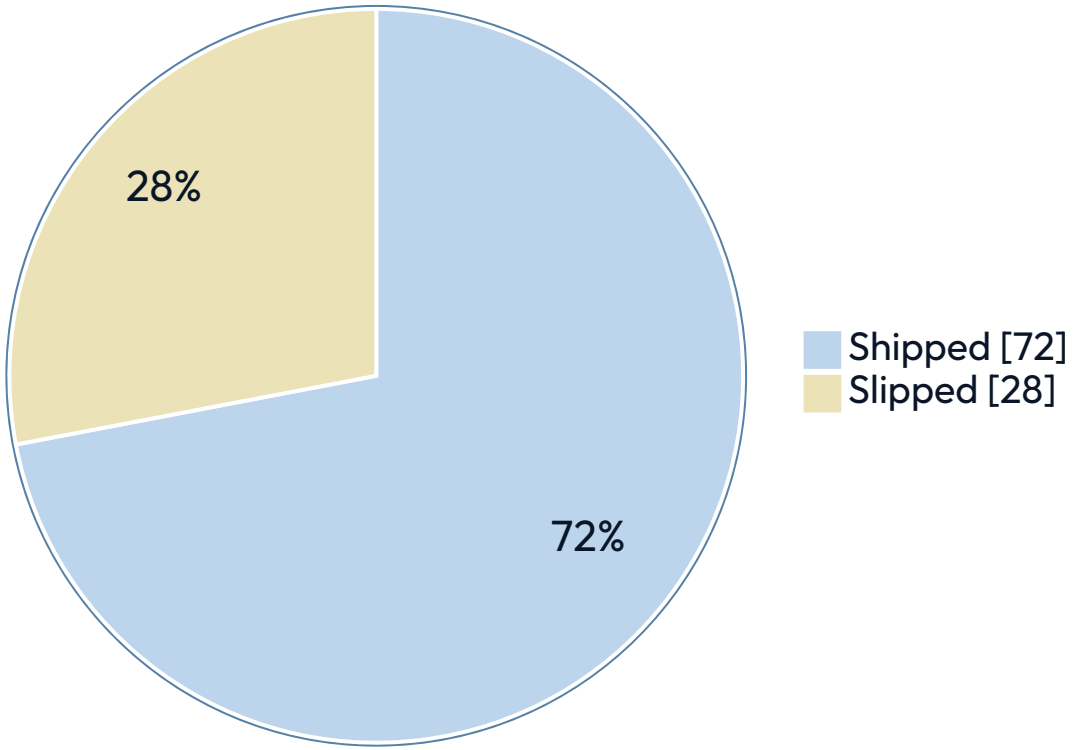

Legend and wedge labels hold a readable size.

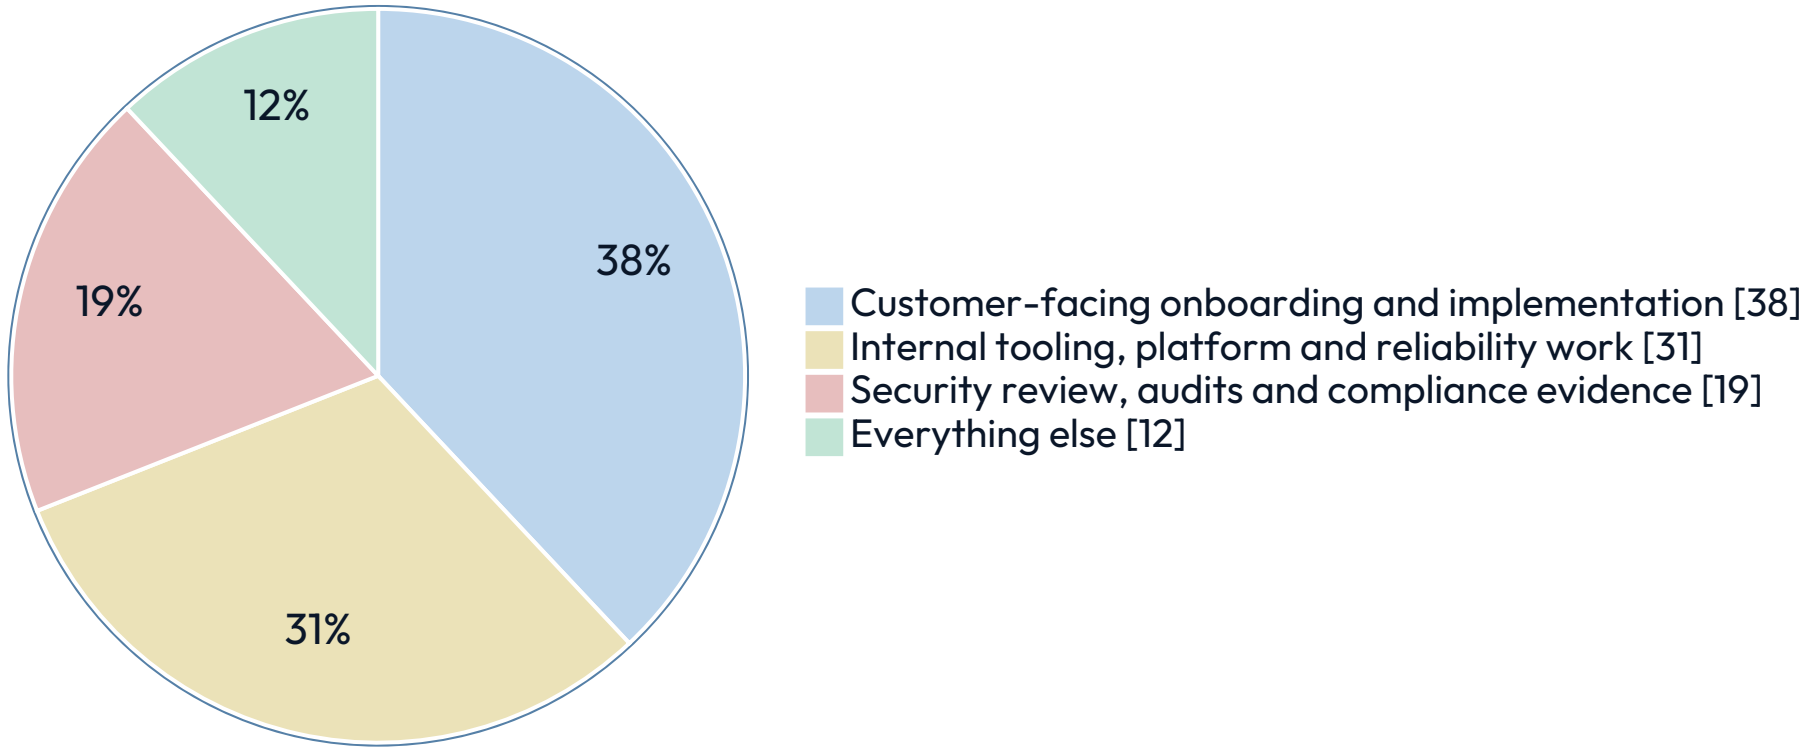

KEY INSIGHT

The legend and the wedge percentages draw at 20px and 22px in the diagram's own units. On this slide they land near 12px and 13px; they used to land near 8px and 9px.

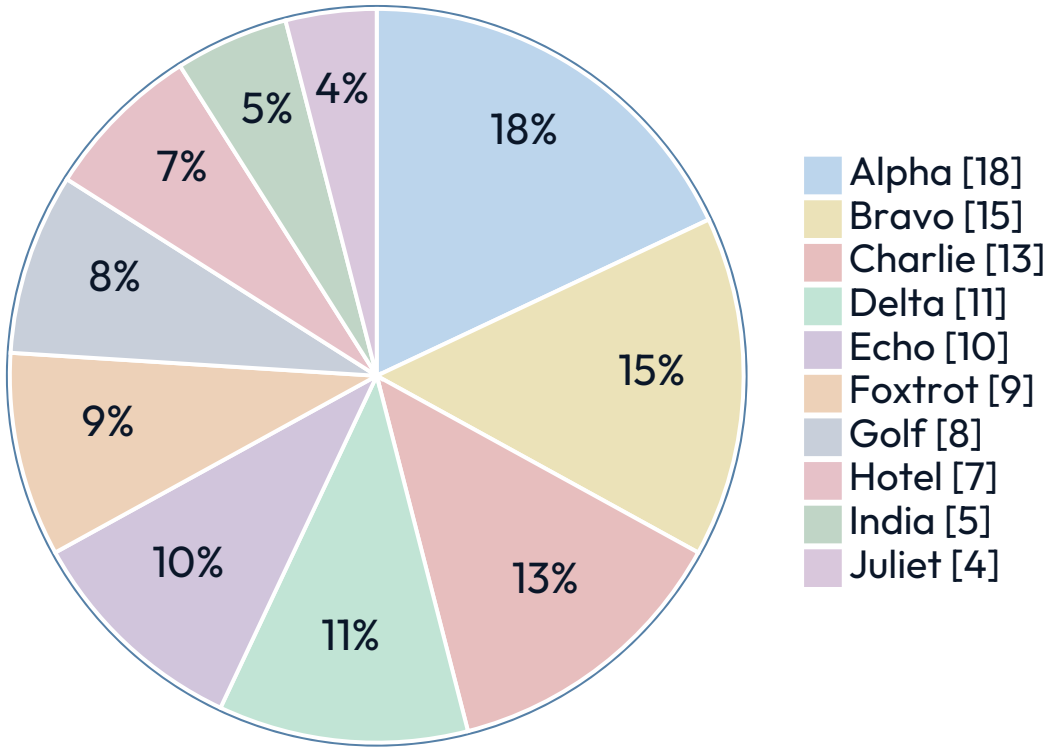

A pie with only two wedges.

Long labels widen the legend, not the pie.

Ten wedges stay legible.

The same pie on a dark slide.
