A split slide reads as a carousel.

The cover carries the title and the swipe cue. Every page after it carries the content and nothing else.

The framework has four parts.

Signal intake →

Signal intake.

Every source lands in one queue.

Scoring model.

Each signal is weighed on three axes.

Decision log.

Every call is written with its signals.

Calibration loop.

Outcomes are checked against predictions.

KEY INSIGHT

Signals without decisions are noise.

The go-live checklist.

- [x] Signal taxonomy ratified
- [x] Scoring weights agreed
- [-] Pilot teams trained
- [ ] Exec sponsor confirmed

Three house rules.

01 State each rule as an imperative.

02 Keep rules under ten words.

03 Retire a rule you keep breaking.

Three jurisdictions.
