

CHART • STATUS VOCABULARY

# Status words agree

A status word colors the same way wherever the engine accepts it.

KANBAN · CAPITALS

# A capitalized status now tints its card.

Capitals used to paint an untinted card.

# Progress reads the word in any case.

Both at-risk rows share one color; capitals used to fall back to info.

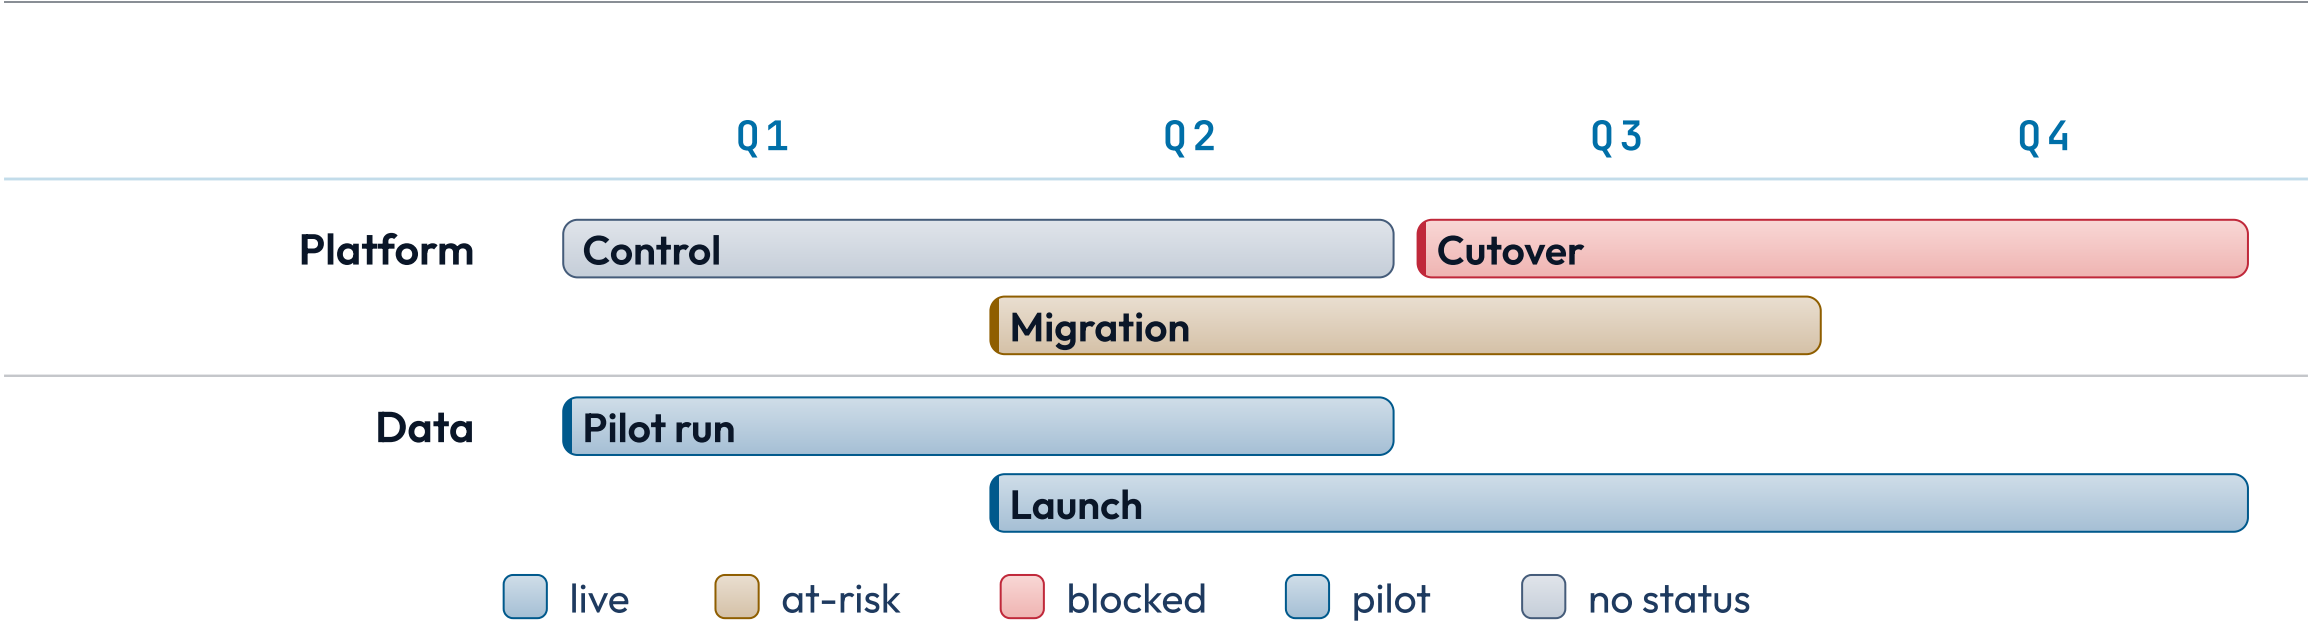

# A timeline pill keeps your spelling and the color.

Capitals used to paint the info fallback.

2026 Q1 .. 2026 Q4

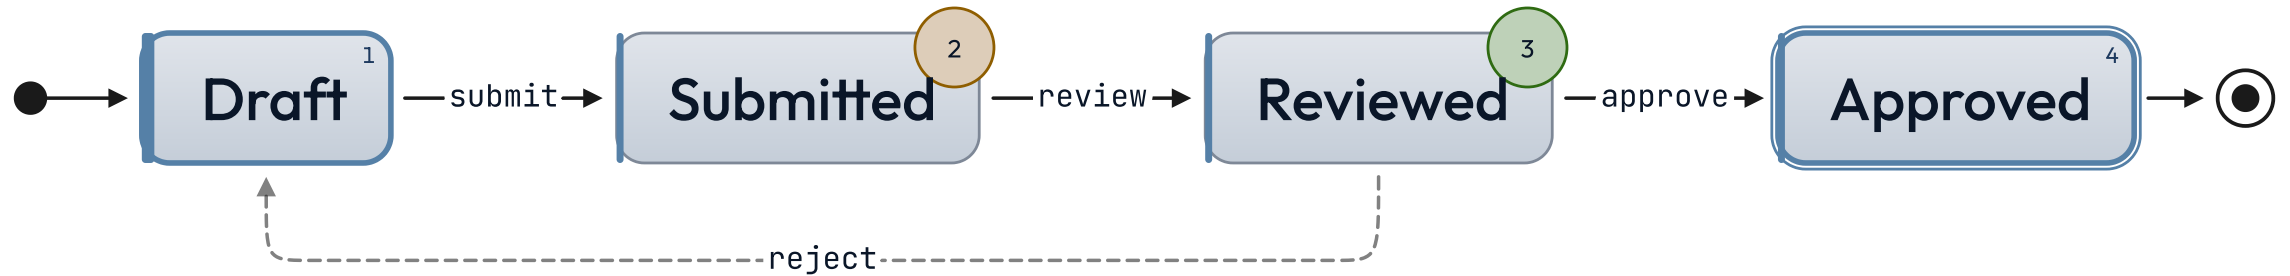

# Gantt spends the status word on the bar.

Gantt paints live as running work, apart from done.

# A state chart puts it on the badge.

SLOPE · ENTITY STATUS

# Slope colors the whole line.

# Same word, same color.

*Six components, one rule: case folds,  
and the pill keeps your spelling.*
