

PROGRESSION • TIMELINE • STRUCTURE

# list-steps

Horizontal row of ordered step cards, each with a full description body (the `vertical` variant stacks them instead).

# Steps promise an order and keep it.

---

## STEP 01

### **Name the step**

A verb-first title and one clause of body.

## STEP 02

### **Keep steps parallel**

Same shape every step, or sequence breaks.

## STEP 03

### **Number honestly**

Order is the promise this layout makes.

## STEP 04

### **Stop at five**

Six fits; seven is two slides.

# vertical stacks the steps down the page.

## STEP 01

### First

Three steps demo a look best.

## STEP 02

### Second

The look changes; the grammar holds.

## STEP 03

### Third

Body budgets do not move.

# Make the case, one stage at a time.

|          |                                      |
|----------|--------------------------------------|
| PROBLEM  | Define the problem causing the pain. |
| VISION   | Show the world once it is solved.    |
| APPROACH | Detail the moves from here to there. |
| PLAN     | Commit to steps, owners, and a date. |

# Many concerns narrow onto one plan.

---

## PROBLEM

Define the problem causing the pain.

## APPROACH

Detail the moves from here to there.

## PLAN

Commit to steps, owners, and a date.

# The argument, stated plainly.

---

## PROBLEM

Define the problem causing the pain.

## APPROACH

Detail the moves from here to there.

## PLAN

Commit to steps, owners, and a date.

# timeline strings the steps along a line.

---

# phase blocks each step as an era.

---

# milestone marks the steps as checkpoints.

---

# lettered counts the steps with letters.

---

## STEP A

### First

Three steps demo a look best.

## STEP B

### Second

The look changes; the grammar holds.

## STEP C

### Third

Body budgets do not move.

## stage prefixes each step with its stage tag.

---

# rank reads the numbers as standings.

---

RANK 01

**First**

Three steps demo a look best.

RANK 02

**Second**

The look changes; the grammar holds.

RANK 03

**Third**

Body budgets do not move.

# tier renders the steps as service tiers.

---

# roman counts the phases in numerals.

---

## PHASE I

### First

Three steps demo a look best.

## PHASE II

### Second

The look changes; the grammar holds.

## PHASE III

### Third

Body budgets do not move.

# Turn the framework into a habit.

**STEP 01**

**Name it**

Say the verb and the reach you operate at today.

**STEP 02**

**Pick the next move**

One deeper verb, or the same verb carried wider.

**STEP 03**

**Keep the evidence**

A doc, a metric, a postmortem — proof the shift happened.

# Five steps is the last honest sequence.

---

# Steps promise an order and keep it.

---

STEP 01

## **Name the step**

A verb-first title and  
one clause of body.

STEP 02

## **Keep steps parallel**

Same shape every  
step, or sequence  
breaks.

STEP 03

## **Number honestly**

Order is the promise  
this layout makes.

STEP 04

## **Stop at five**

Six fits; seven is two  
slides.

# Steps promise an order and keep it.

---

## STEP 01

### **Name the step**

A verb-first title and  
one clause of body.

## STEP 02

### **Keep steps parallel**

Same shape every step,  
or sequence breaks.

## STEP 03

### **Number honestly**

Order is the promise  
this layout makes.

## STEP 04

### **Stop at five**

Six fits; seven is two  
slides.

# Steps promise an order and keep it.

---

## STEP 01

### **Name the step**

A verb-first title and  
one clause of body.

## STEP 02

### **Keep steps parallel**

Same shape every  
step, or sequence  
breaks.

## STEP 03

### **Number honestly**

Order is the promise  
this layout makes.

## STEP 04

### **Stop at five**

Six fits; seven is two  
slides.

# When NOT to reach for list-steps.

## Light labels, no body

If each step is a single label with no description, use the `timeline` variant (dots on a spine). The default step cards earn their chrome only when the body adds substance.

## Parallel options

If the rows are alternatives the audience compares, use `cards-grid` or `verdict-grid`. The numbered prefix here reads as sequence — using it for parallel items mis-cues the audience.

## Author-typed step numbers

Don't write `**STEP 01**` into the markdown. The badge is CSS-generated from the `ol` counter; manual numbering double-stamps and breaks on reordering.

RELATED COMPONENTS

# See also.

`split-panel` — phase label + heading on the left, steps on the right

`roadmap` — phased grid across multiple workstreams

`list` — tenets or values (the `principles` variant) rather than a sequence; `takeaway numbered` for gating requirements rather than a sequence of actions

`funnel` — a value-driven funnel with conversion percentages, rather than the qualitative `converge` variant
