compare-table

Multi-row comparison table with consistent columns.

The table compares rows on consistent columns.

ROW	HOLDS	BUDGET
A label	One cell per column	Twelve words
Every row	The same column set	Twelve words
Six rows	The comfortable page	Twelve words

Eight rows is the table's hard ceiling.

ROW	READS	AT THE CEILING
One	First	Fresh attention
Two	Fast	Keep cells short
Three	Steady	Parallel phrasing
Four	Mid-page	The pivot row
Five	Slower	Trim adjectives
Six	The soft mark	Past comfort
Seven	Strained	Nearly done
Eight	Last	The hard stop

The table compares rows on consistent columns.

ROW	HOLDS	BUDGET
A label	One cell per column	Twelve words

The table compares rows on consistent columns.

ROW	HOLDS	BUDGET
A label	One cell per column	Twelve words
Every row	The same column set	Twelve words
Six rows	The comfortable page	Twelve words

When NOT to reach for compare-table.

Cells full of prose

Long sentences in a table cell wrap awkwardly and force the column wider. Move to [verdict-grid](#) for criteria with body text, or [cards-stack](#) for full prose rows.

More than 6 rows

Past 6 rows the table density crowds the slide. Split into two slides or summarize the rows that don't differentiate.

State-marker rows

When most cells are pass/fail/partial badges, the right layout is [obligation-matrix](#) or [verdict-grid](#). compare-table is for textual values.

RELATED COMPONENTS

See also.

`compare-prose` — exactly two options with prose bodies

`verdict-grid` — options scored against criteria with
pass/partial/fail badges

`obligation-matrix` — many regimes compared against shared
obligations

`cards-stack` — each row needs full-prose breathing room
rather than a tabular cell
