

FEATURE DEMO • STATE MARKERS

Circles, with a mark

A universal, color-blind-safe treatment for     — one status-colored disc,
one distinct mark.

One disc, four marks.

 Check — done, succeeded, complete

 Dash — partial, caveat, qualified

 X — not done, rejected, todo

 Slash — out of scope, waived, N/A

KEY INSIGHT

The mark's shape carries the meaning independently of color — the redundant channel the old fill-level discs lacked. Read it in grayscale and it still parses.

Theme– and canvas–aware.

- ✓ Scoring policy live across all pilot teams
- ✓ Decision Log audit trail readable by Auditor role
- Examiner pack auto-generation — *open, see slide 27*
- Multi-team calibration cadence — *Phase 2*
- ⌵ Org-wide adoption — *deferred to Phase 3*

Same grammar inside verdict badges.

Build in-house

-  Certified
-  Residency
-  Export

Full control of every axis, three engineer-quarters from having any of it.

Vendor North

-  Certified
-  Residency
-  Export

Certified and in-region, but data export is support-gated.

Vendor West

-  Certified
-  Residency
-  Export

Certified, in-region, self-serve on every axis. Recommended.

And across a coverage matrix.

REGULATION	NOTICE	CONSENT	RETENTION	BREACH	DSAR
GDPR	✓	✓	✓	✓	✓
CCPA/CPRA	✓	—	✓	✓	✓
PIPEDA	✓	✓	—	✓	—
GLBA	✓	—	—	✓	○

Variant — checks-outline.

- ☒ Editorial, low-ink: ring + status-color mark
- ☐ Best where the row has no tint behind it
- ☐ Per-slide or per-deck, no markup change
- ☐ Marks and colors never change — only the disc

Variant — **checks-bold**.

✓ Larger disc, heavier mark — reads across a room

— Knockout mark on a flat saturated fill

○ Good for projection or a single hero checklist

⦿ Five variants ship; the default is Ringed Solid

CHECKLIST · VERDICT-GRID · OBLIGATION-MATRIX

Shape first, color second.
