`Bn` and `BN` now read as billions

Finance decks write a billion four ways, and every chart draws all four at the same height

Revenue by segment · $ billion

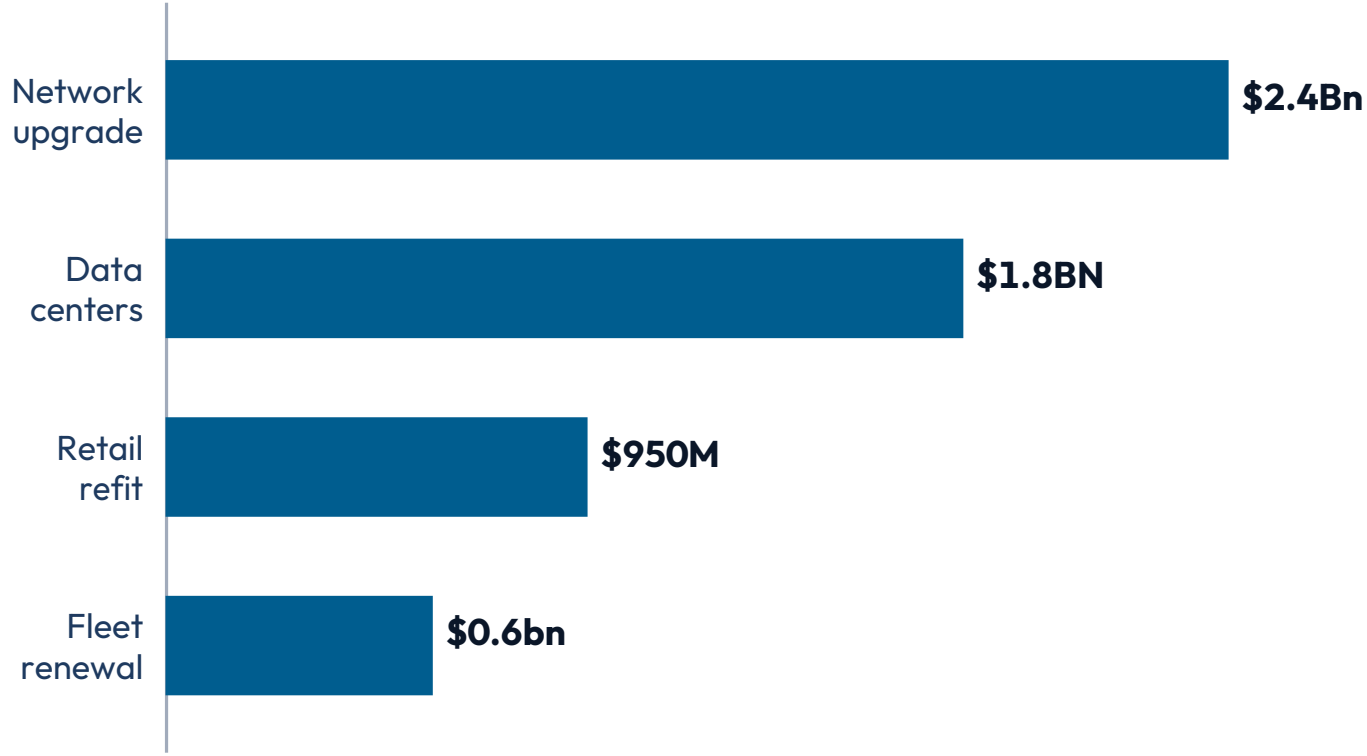

Four spellings of one figure draw four equal bars.

Before, Services and Licensing drew at five dollars, a billion times too short.

Capital plan · $ billion

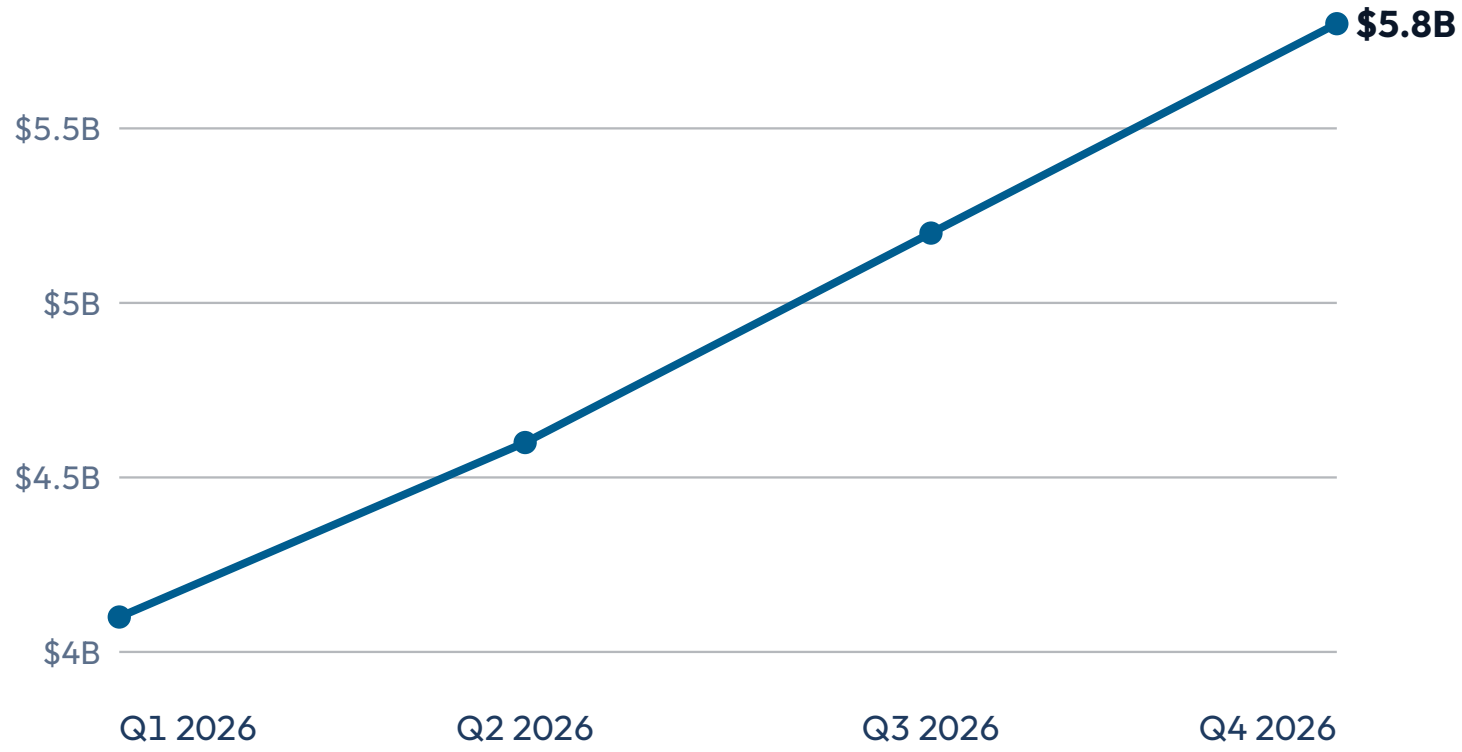

A deck pasted from two models still shares one axis.

Every billion spelling reads as a billion

Group revenue · $ billion

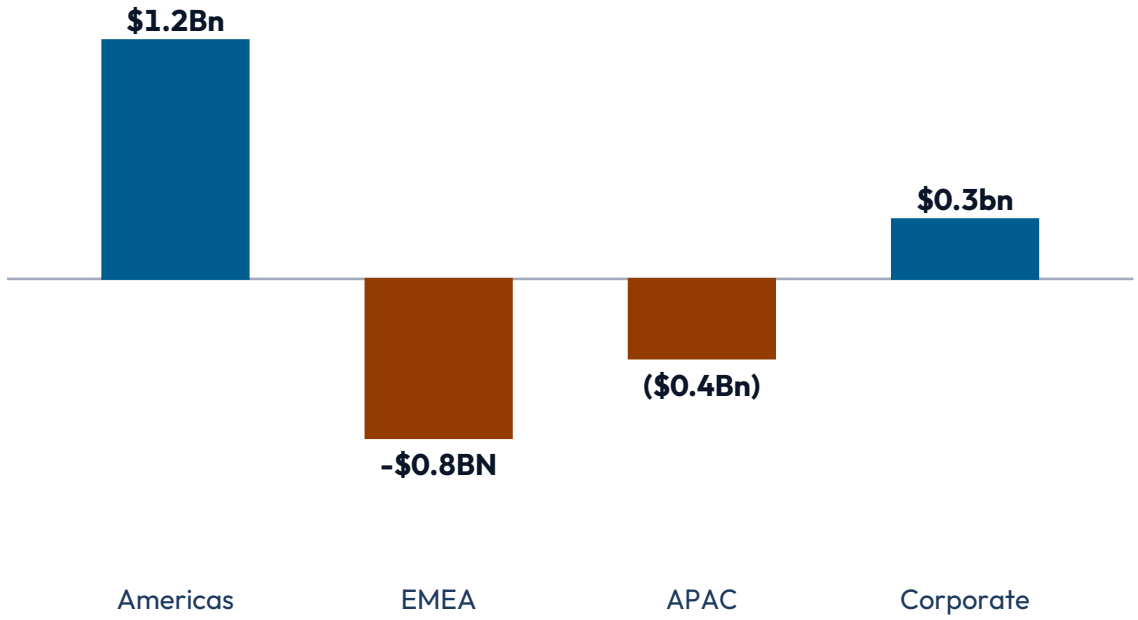

Revenue crossed five billion in the third quarter.

Every billion spelling reads as a billion

Variance to plan · $ billion

A negative billion reads as negative in every spelling.

The narration says "down eight hundred million dollars" for EMEA, as it does for `-$0.8bn`.

The picture and the voice now agree

Before, the narration said "five billion" over a bar drawn at five
