Charts · roadmap · finishes

Three chart finish fixes: roadmap discs, kanban code, etch slopes

Roadmap status discs join the one status level, kanban inline code clears AA again, and etch draws a slope its own way.

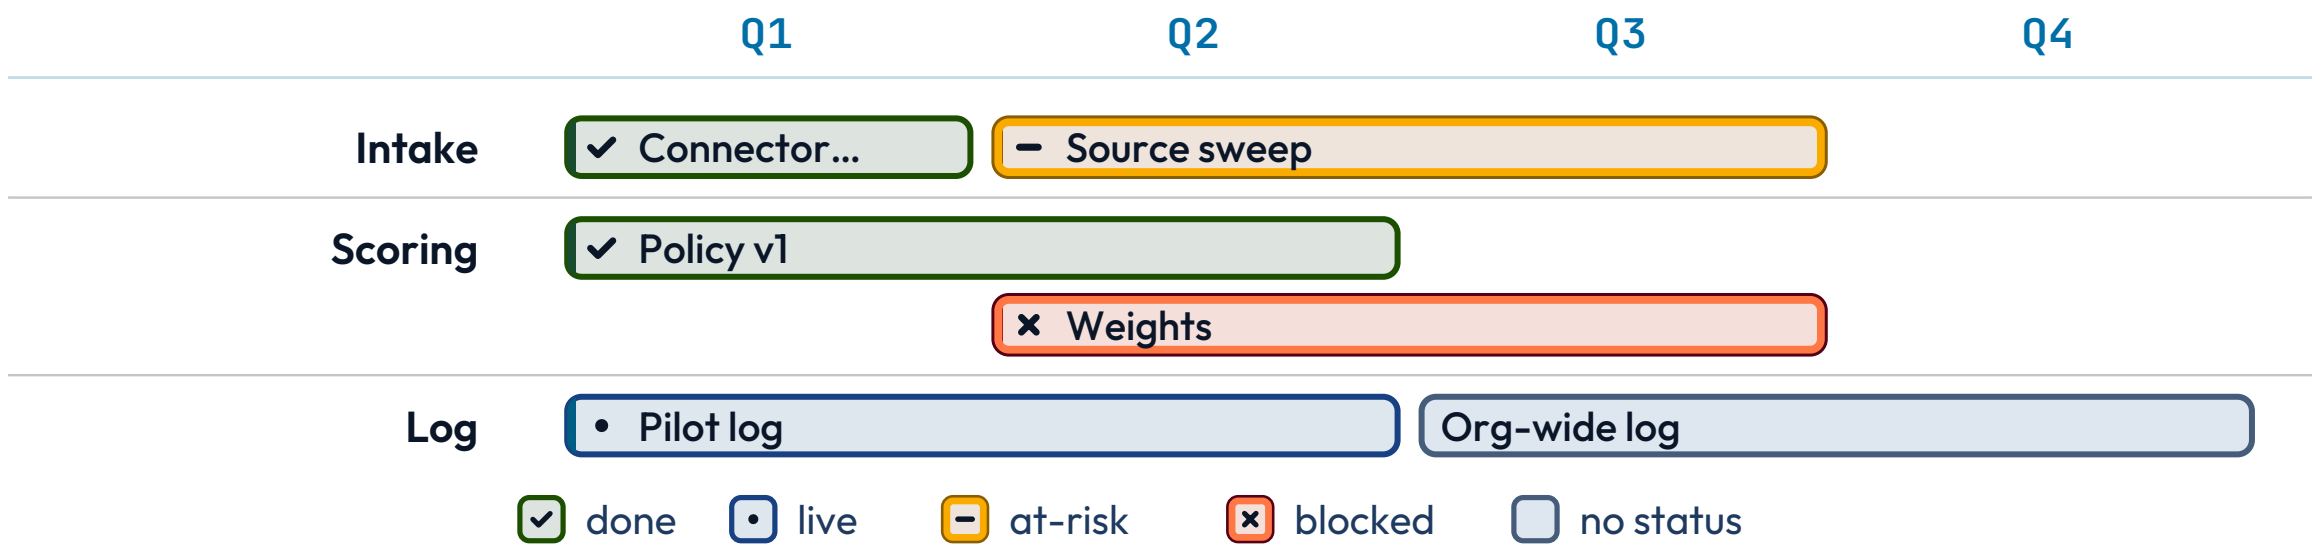

Etch · roadmap

Etch draws each status as a wash with a colored edge.

The same plan as a gantt, at the same status level

Delivery state reads from the ground, not the disc.

Etch · kanban

Inline code on a tinted card reads at AA again.

BACKLOG

- Wire the `ingest` hook
- Retire `csv_v1` export

DOING

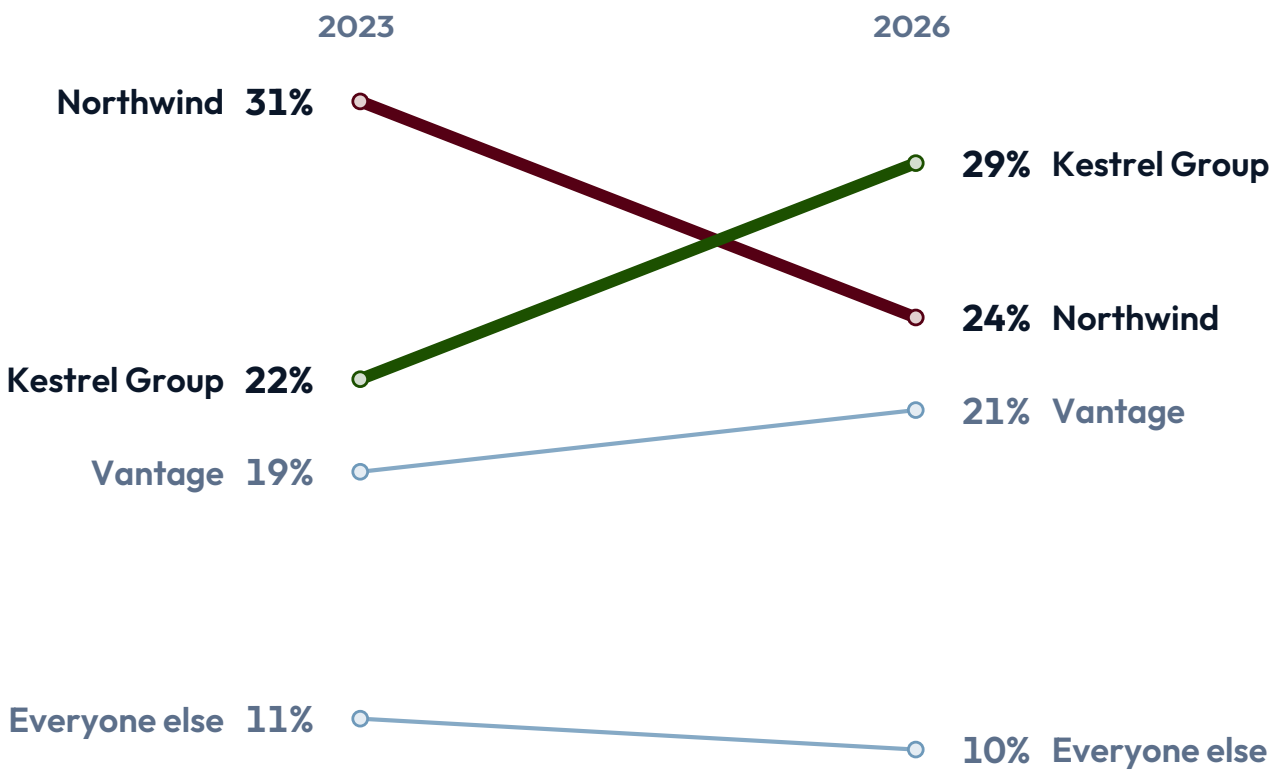

- Score with `weights.v2`
- Dedupe on `source_id`

REVIEW

- Ship `audit-log` view

Etch · slope

Kestrel took the lead; Northwind gave it up.

Etch · slope · dark

On a dark slide, the direction still reads at a glance.
