Charts · lead paragraphs

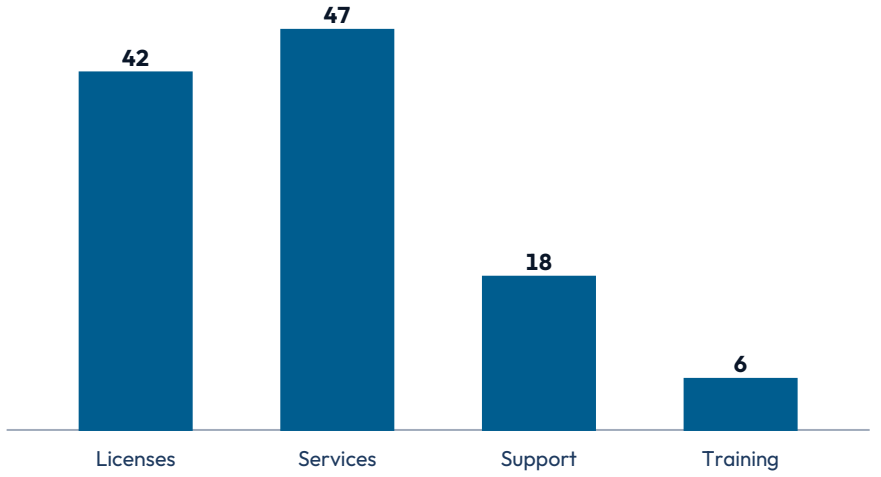

Every paragraph before a chart renders

Revenue mix · FY26

Services outgrew licenses for the first time.

Revenue by line, $M.

Bookings, not billings: a multi-year deal counts in the quarter it closed.

The second paragraph above used to be dropped without a warning.

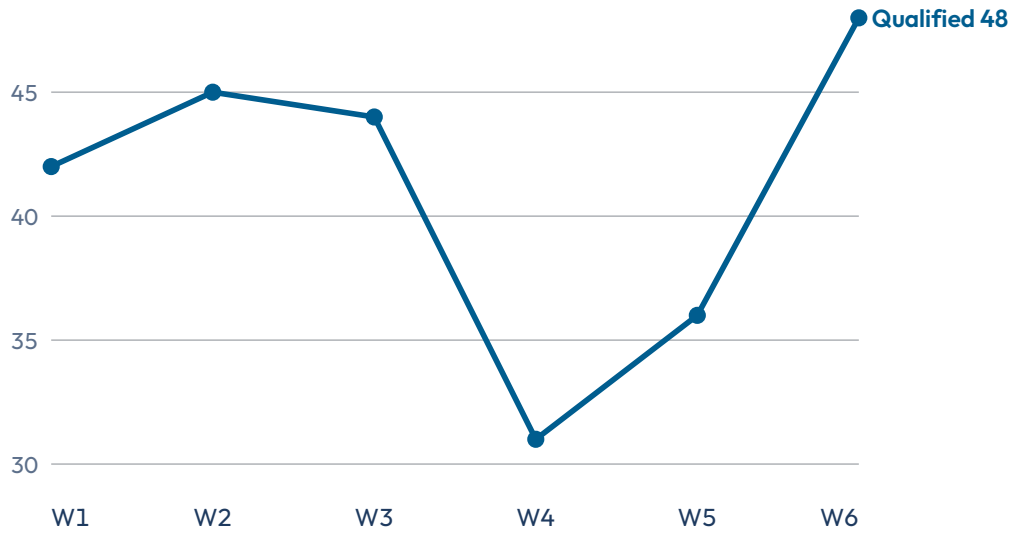

Pipeline · weekly

Qualified pipeline recovered after the pricing change.

Qualified opportunities, count.

The dip in week 4 is the price change. Week 6 is the new rate card reaching partners.

A third paragraph renders too, in the order it was written.

H1 2026 · Phase 1 readiness

Readiness varies widely by workstream.

Percent of exit criteria met.

Adoption is blocked on the data-sharing agreement, not on engineering.

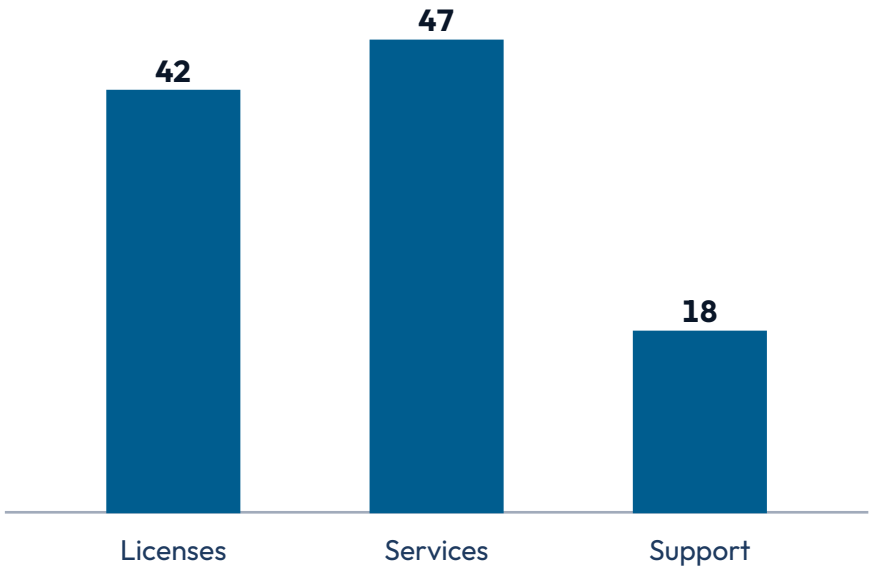

Revenue mix · A chart pane

A pane keeps its second paragraph too.

Revenue by line, $M.

Bookings, not billings.

- Services crossed licenses in March
- Support margin is the steadiest line
- Fold training into services

Nothing an author writes is dropped
