chart · venue

Chart labels now grow with the room.

At `venue: hall` a chart's labels used to print smaller than on a laptop. They now hold 8 arcminutes of x-height at the back row.

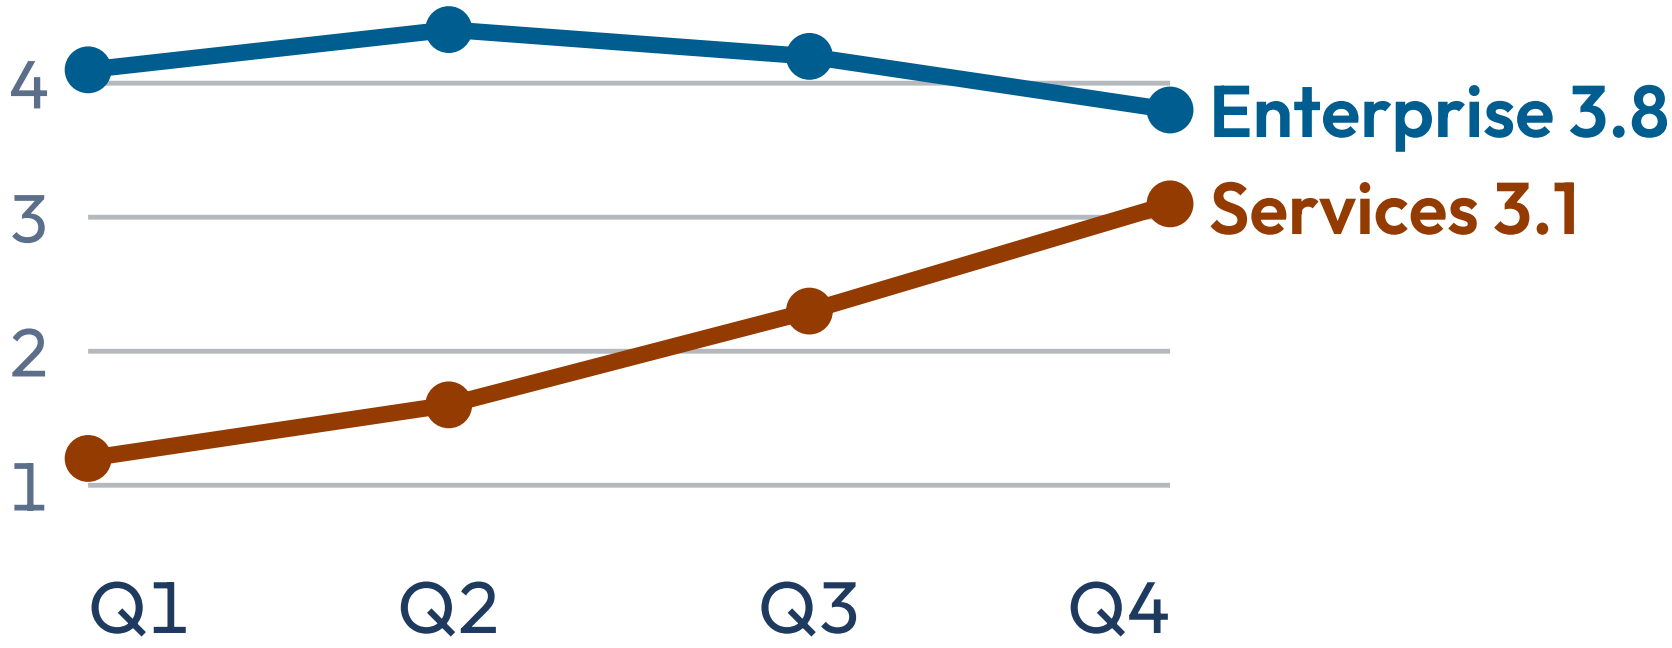

Hall · labels at the back row

Growth is concentrated in two regions.

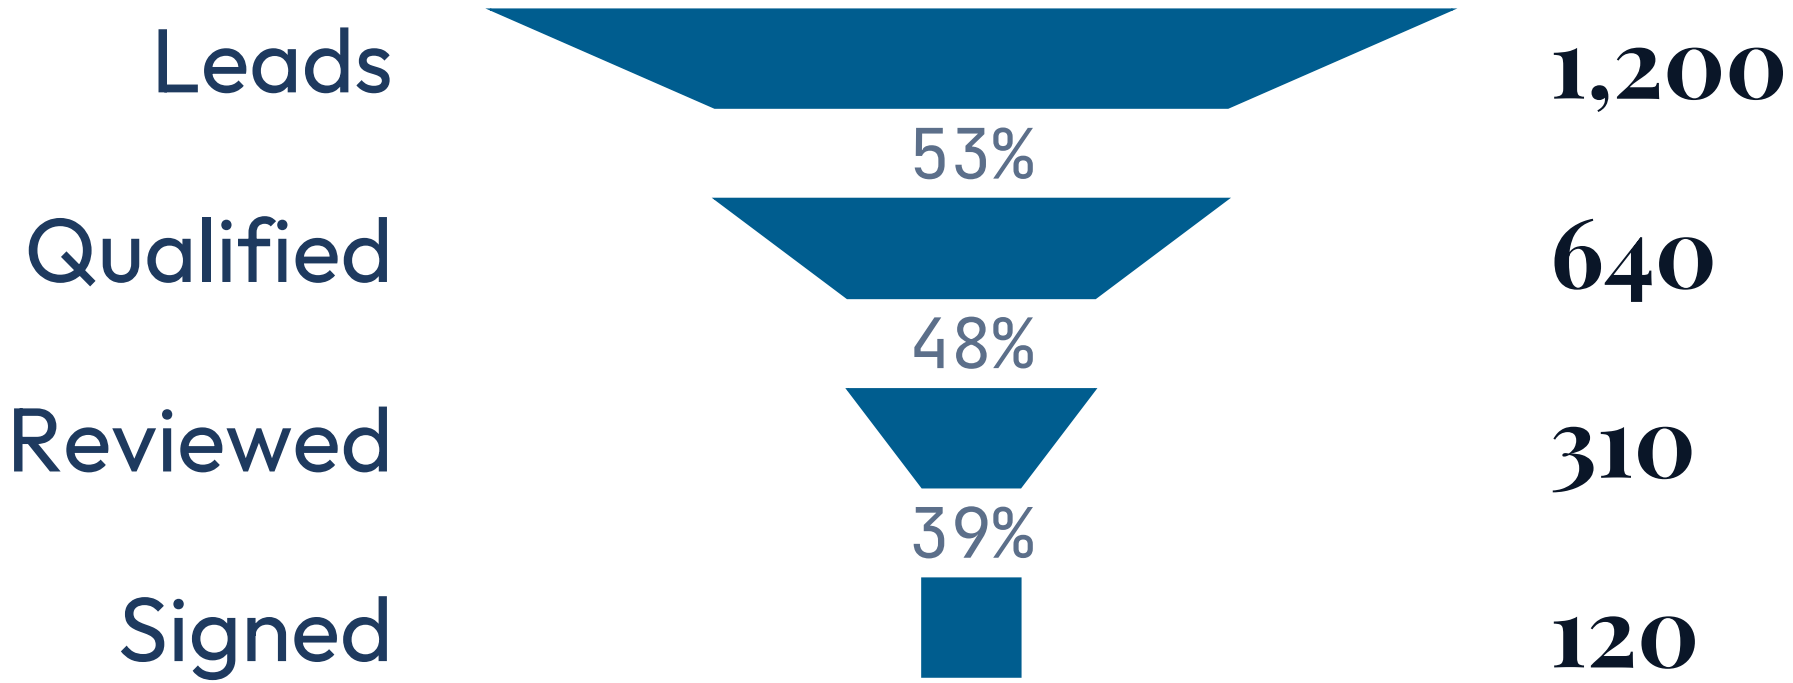

Hall · every quarter stays named

Services grew into the gap.

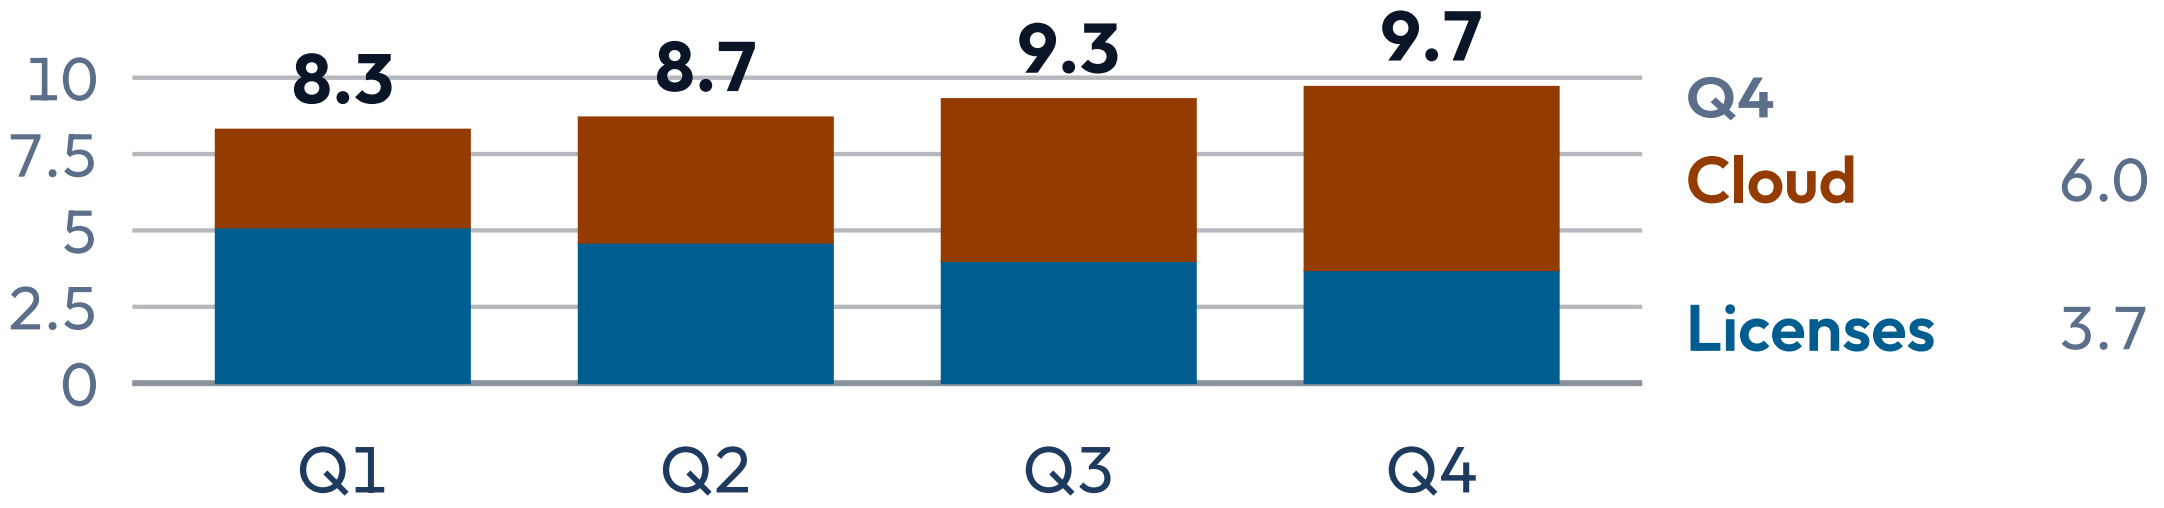

Hall · the columns fit their names

Half the pipeline stalls at review.

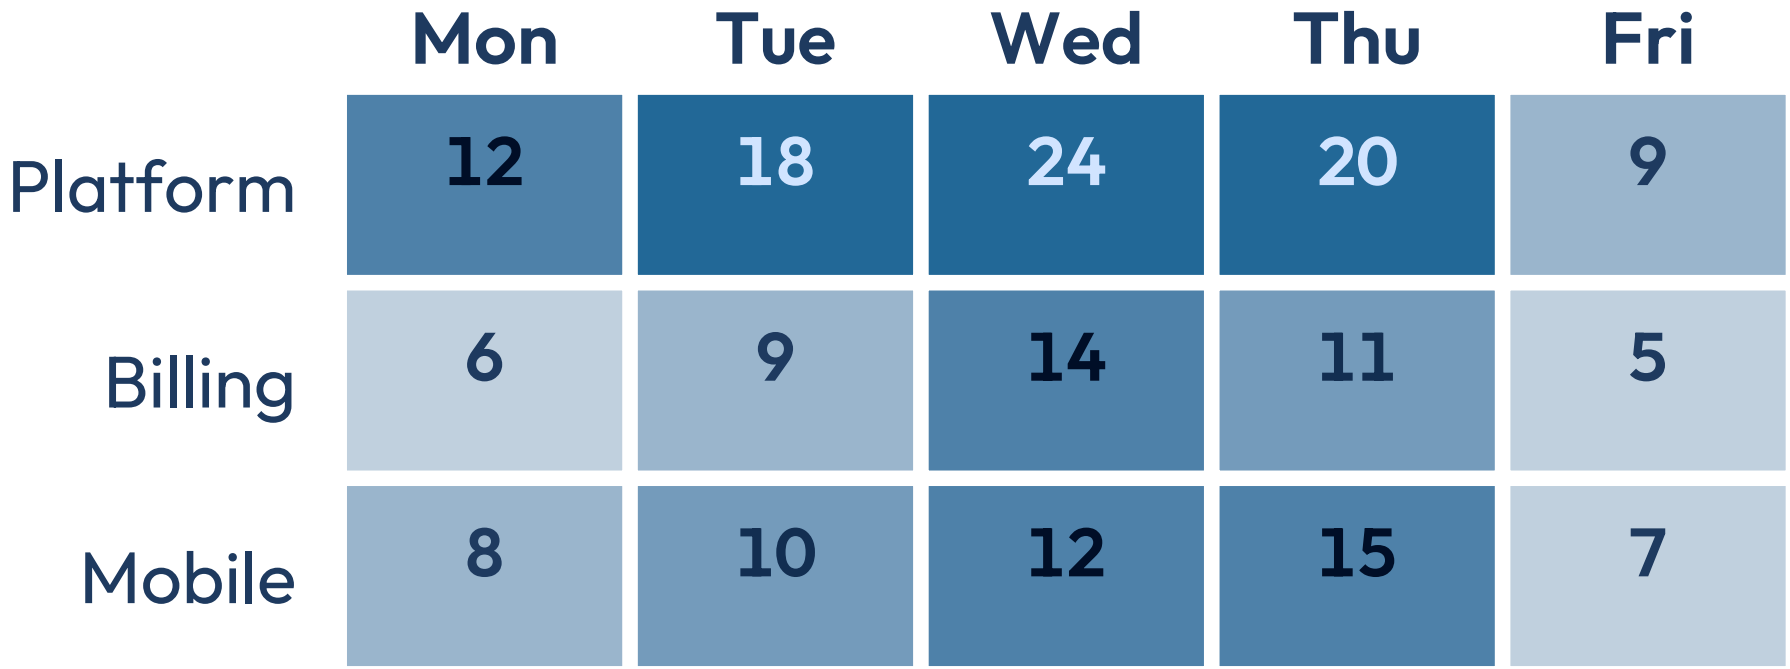

Hall · the key grows with the chart

Cloud overtook licenses in Q3.

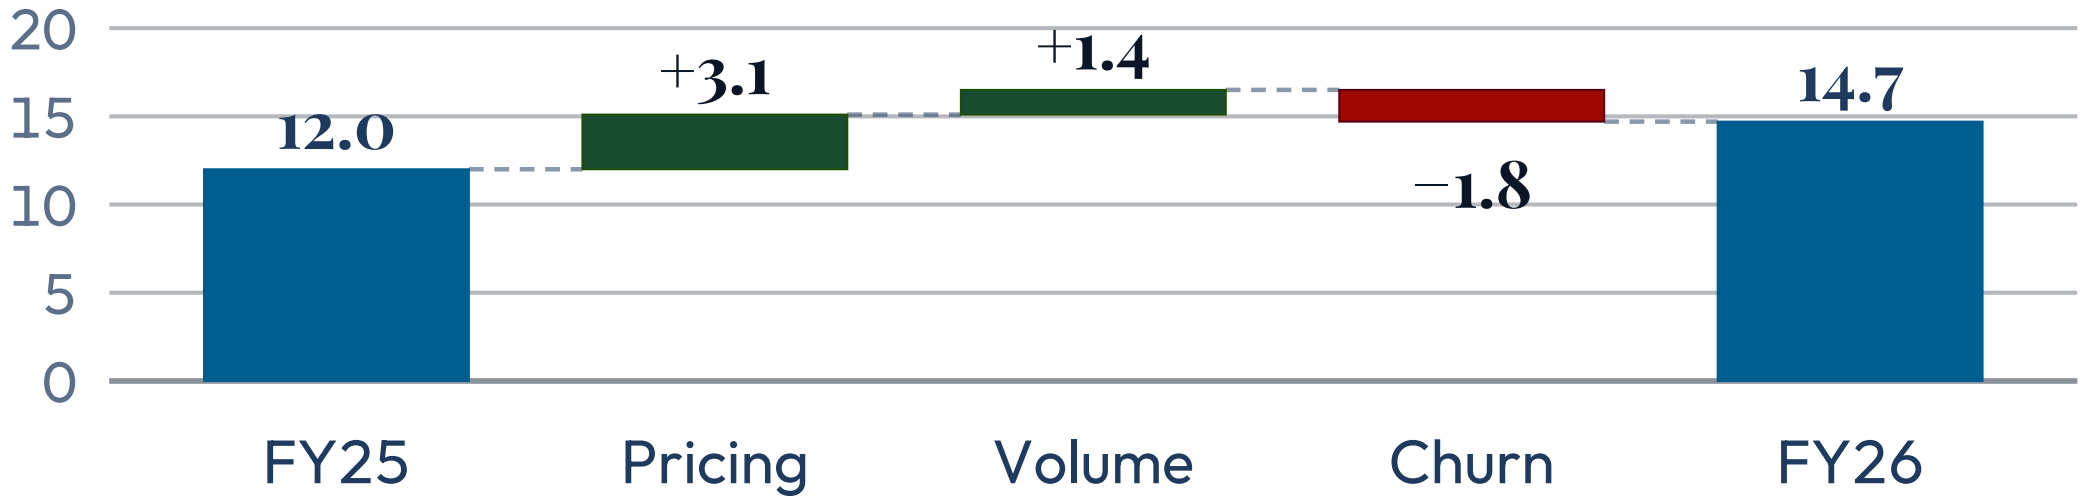

Hall · cell values and both axes

Support load peaks midweek.

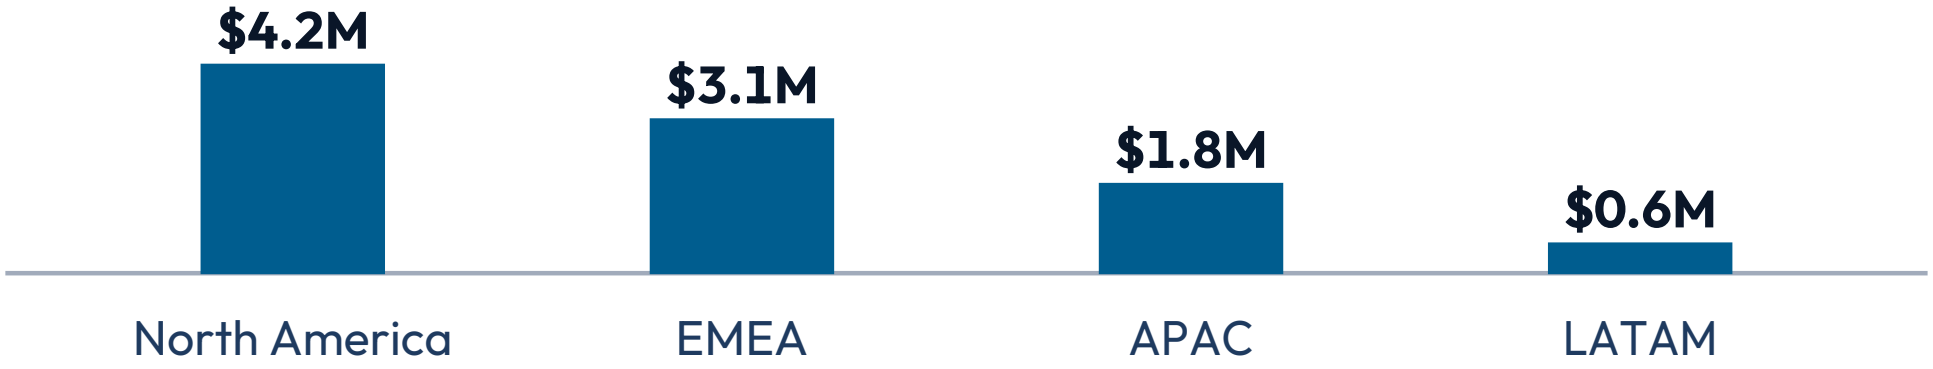

Hall · steps and totals

Pricing carried the year.

Hall · a short box keeps every name

A source line costs the chart its height.

Source: finance ledger, unaudited. Here a larger size would cost a label, so the chart keeps its old size.
