Feature · delivery: restrained · expressive · somber

The Guide focuses the thing it names.

Press Present, turn Guide on and play. As the narration names a bullet, a table row, a cell, a column, a bar or a line, that element stays as it is and everything around it recedes. Nothing moves, and nothing is drawn over the slide.

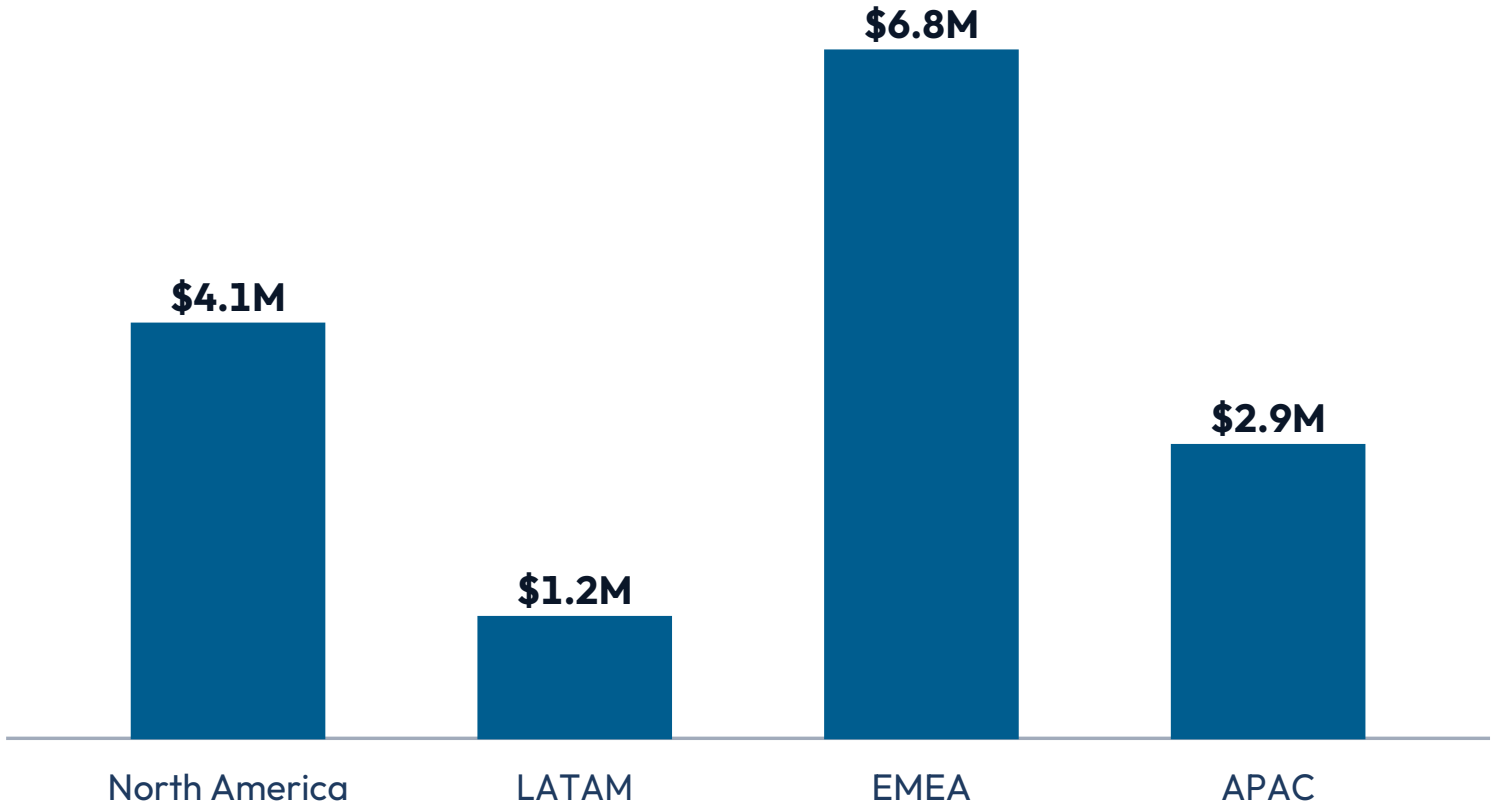

The quarter, line by line

- Hiring continued on plan across every team.
- ARR closed at $48.6M, ahead of plan.
- The office move finished in August.
- Payback stretched to 19 months.

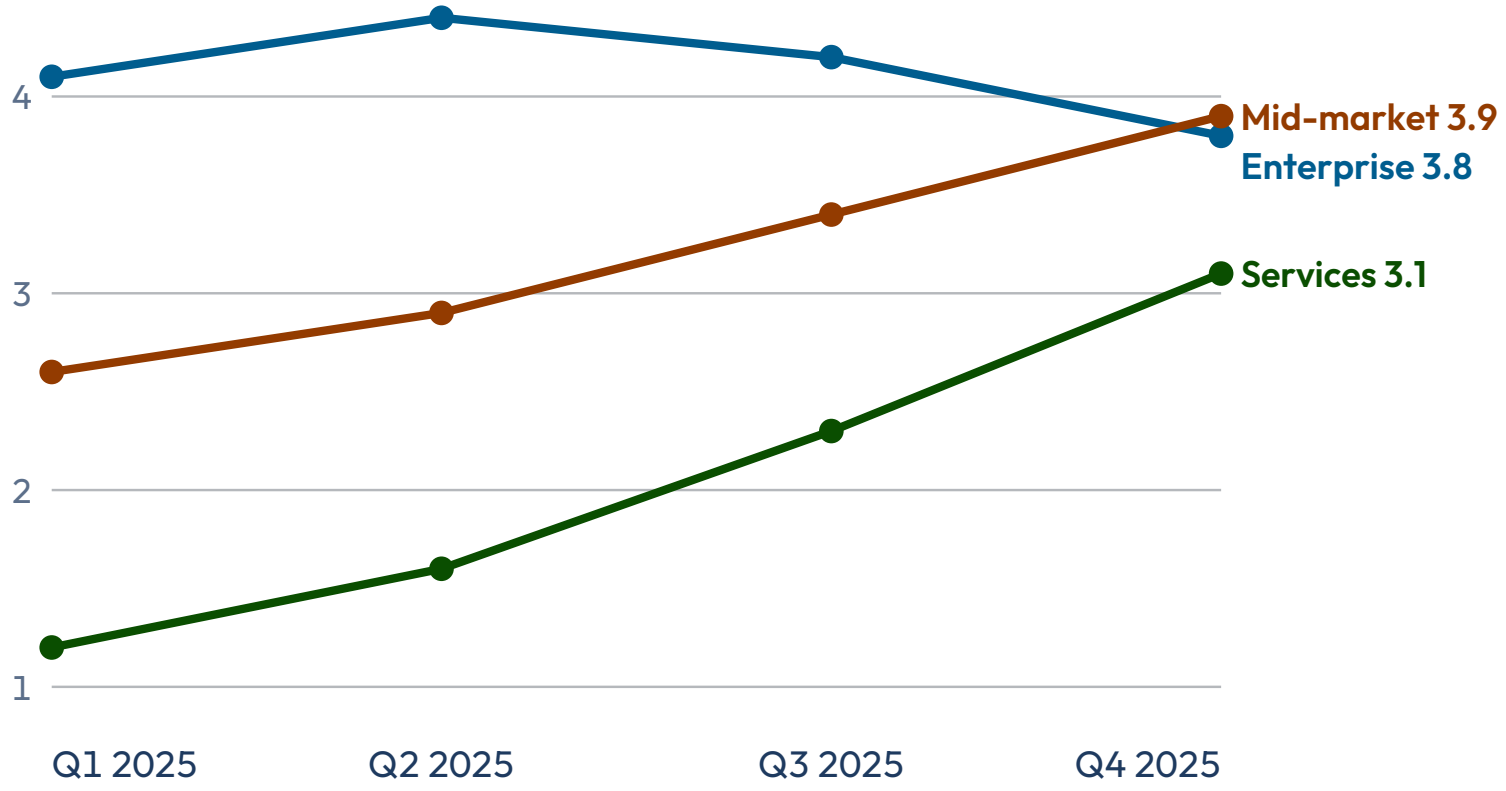

SMB churn is the number to watch.

SEGMENT	Q3	Q4	EUROPE
Enterprise	1.2%	1.1%	0.9%
SMB	7.8%	9.4%	6.1%
Mid-market	3.1%	3.3%	2.7%

EMEA is where the quarter was won.

Services grew into the gap enterprise left.

Three presets read three ways

- Restrained recedes the rest to the chart hover's own depth.
- Somber recedes it gently and hands off slowly.
- Expressive recedes it deepest and inks the top moment.

delivery: restrained · expressive · somber

One lever. Nothing moves.

The named bullet, row, bar or line stays as it is while everything around it recedes, the same emphasis a chart gives on hover. A PDF, a PPTX and an export are unchanged.
