chart · kanban

The kanban board, recomposed.

Color now serves the decision — **status** — not decoration. The default board is calm; category coding is there when you ask for it.

Phase 2 · Sprint 14

Default — a calm grid where the flag is the focal point.

Release train · go / no-go

Status holds up under load — three flags, instantly visible.

kanban · default · keyline · tinted

One board, three readings.

The default spends color on what's in trouble. `keyline` adds ownership; `tinted` adds stage. Pick the one the room needs — the markup never changes.
