Typography · venue: hall

The room sets the size

Every slide renders at 1.5x. A slide too full for the room clips and is named, and the deck never shrinks itself to fit.

Fits · list-steps

Three steps read from the back row.

STEP 01

Plan

Reads the ticket and writes the plan down.

STEP 02

Build

Writes the code and the tests.

STEP 03

Hand off

Opens the pull request with notes.

Too full · list-steps

Five long steps do not fit at 1.5x.

STEP 01

Plan

Reads the ticket, plans the change,

STEP 02

Build

Writes the code and tests, then

STEP 03

Fix

Fixes whatever breaks the build

STEP 04

Report

Notes how sure it is, and names

STEP 05

Hand off

Waits for approval, answers review

Content clipped

Split · list-steps

Split: the first three steps.

STEP 01

Plan

Reads the ticket, plans the change, and writes down why before anyone asks.

STEP 02

Build

Writes the code and tests, then opens a pull request with a summary.

STEP 03

Fix

Fixes whatever breaks the build and explains each fix in a commit.

Split · list-steps

Split: the last two steps.

STEP 04

Report

Notes how sure it is, and names the parts it could not check.

STEP 05

Hand off

Waits for approval, answers review comments, and leaves notes for next time.

Retired · STEP and LEVEL

One size, set by the author, on every surface.

EVERY SLIDE AT HALL	WHOLE-DECK MEASURES	PLACES A CLIP IS NAMED

Pick the room, then write for it

The venue is a promise the deck keeps.

Choose it in deck settings, switch it live in Present, and split what does not fit.
