Bar: top

A bar on top is the default

- The heading, this list, the header, the footer and the page number sit in the same place
- Flip between the slides: only the bar moves
- Each slide here differs from its neighbor by one class

Bar: left

A bar on the left reads as a rail

- The heading, this list, the header, the footer and the page number sit in the same place
- Flip between the slides: only the bar moves
- Each slide here differs from its neighbor by one class

Bar: right

A bar on the right mirrors it

- The heading, this list, the header, the footer and the page number sit in the same place
- Flip between the slides: only the bar moves
- Each slide here differs from its neighbor by one class

Bar: bottom

A bar on the bottom reads as a baseline

- The heading, this list, the header, the footer and the page number sit in the same place
- Flip between the slides: only the bar moves
- Each slide here differs from its neighbor by one class

Bar: none

No bar at all

- The heading, this list, the header, the footer and the page number sit in the same place
- Flip between the slides: only the bar moves
- Each slide here differs from its neighbor by one class

Bar: top · dark

A bar on top is the default (dark)

- The heading, this list, the header, the footer and the page number sit in the same place
- Flip between the slides: only the bar moves
- Each slide here differs from its neighbor by one class

Bar: left · dark

A bar on the left reads as a rail (dark)

- The heading, this list, the header, the footer and the page number sit in the same place
- Flip between the slides: only the bar moves
- Each slide here differs from its neighbor by one class

Bar: bottom · dark

A bar on the bottom reads as a baseline (dark)

- The heading, this list, the header, the footer and the page number sit in the same place
- Flip between the slides: only the bar moves
- Each slide here differs from its neighbor by one class
