topic · shelf floor

The lit tab stands off the shelf, even on black.

On onyx-dark the band is pure black, so the lifted shelf came out at #161616 and the lit tab separated from it at 1.16:1. The shelf now never falls below lightness 0.34, and the tab reads at 1.79:1.

Unit economics.

Section 01 · Unit economics

Cost to win

Fully loaded acquisition cost is $4,100, against $2,970 in the plan.

Lifetime value

Gross-margin LTV is $11,800, and the mix keeps shifting to the durable tier.

Payback

Fourteen months blended, against a nine-month plan. The black tab reaches down from the band, and the shelf beside it is a visible step lighter.

One floor, and the palettes above it keep their shelf.
