Capital campaign · $8M to build the Eastside clinic

Lakeside Community Health

In Eastside, a family waits three weeks for a doctor and drives an hour for a dentist. We're building the clinic that ends that wait.

Eastside has 28,000 residents and not one full-service health clinic.

For two decades, Lakeside Community Health has run pop-up clinics out of a converted school bus and a rented church basement. Demand has long outgrown the space. The neighborhood needs a permanent home for care.

- The nearest clinic taking new Medicaid patients is 11 miles away, across two bus transfers.
- One in three Eastside children has never seen a dentist.

Meet the Reyes family — they are why this clinic cannot wait.

Marisol Reyes brought her son Diego to our bus clinic with a toothache he'd had for months. We could treat the pain but had no chair to do the extraction. She took an unpaid day off work and three buses to a clinic that could.

- Diego is one of 4,200 Eastside children with no dental home.
- A permanent clinic means same-day care, not a day's lost wages.

The need, in one number

28,000

Eastside residents with no full-service health or dental clinic in their neighborhood.

The gap we close · Eastside, 2025

The cost of having no clinic is paid every day, in delayed care.

Drawn from county health-access data and our 2025 patient intake records.

> *I shouldn't have to choose between my son's tooth and a day's pay. A clinic down the street changes everything for us.*

— MARISOL REYES, EASTSIDE RESIDENT

The campaign

$8M

to build, equip, and open a permanent 14-room health and dental clinic in the heart of Eastside.

The plan is finished, the land is secured — we are funding the building.

We hold a 99-year lease on the old Eastside firehouse lot, the architectural plans are approved, and the county has committed operating support once we open. The capital campaign funds construction, equipment, and the first year of care.

- $5.4M builds and outfits the clinic; $2.6M equips dental, exam, and pharmacy.
- Every operating dollar after opening is already underwritten by county and Medicaid reimbursement.

What your gift funds.

01

14 exam and dental rooms

Same-day medical and dental care under one roof, for the first time in Eastside.

02

A full dental suite

Four chairs, X-ray, and a sterilization lab — ending the 11-mile drive for a filling.

03

An on-site pharmacy

Prescriptions filled before a family leaves the building, no second trip.

04

The first year of care

Staffing and supplies to serve 9,000 patients before reimbursement steadies the budget.

Campaign · as of June 2026

We have raised $5.2M of our $8M goal.

Momentum

$5.2M

committed by 340 donors and three foundations — leaving $2.8M to break ground this fall.

Who has stepped up · campaign to date

This is already a community campaign — broad, not just a few big checks.

Counts reflect signed commitments as of June 2026.

OF DONORS LIVE IN EASTSIDE

Giving levels — every one carries a permanent place in the building.

Founder's Circle — $1M+

Names the clinic in your family's honor, engraved at the main entrance.

Cornerstone — $250K+

Names the dental suite or the pharmacy, with a plaque at its door.

Exam Room Patron — $100K+

Outfits and names one fully-equipped exam room for ten years of care.

Founding Donor — $5K+

Your name on the Eastside donor wall, with the neighbors who built this.

Naming opportunities · still open

A handful of cornerstone gifts close the remaining $2.8M.

PATRON

A leadership gift now is what lets us break ground this fall.

Construction bids are firm for 90 days. With $2.8M committed by September, we pour the foundation before winter and open doors in 2028. Every month of delay pushes care — and a higher build cost — onto the families who can least afford to wait.

- A single $1M naming gift unlocks the September groundbreaking.
- Costs rise roughly $40K for every month construction slips.

We are asking you to lead the final phase of this campaign.

MAKE A LEADERSHIP GIFT NOW

Closes the $2.8M gap, secures the firehouse-lot bids, and breaks ground this fall.

GIVE IN THE PUBLIC PHASE LATER

Pushes groundbreaking past winter and adds carrying cost the campaign must absorb.

WAIT FOR A MATCHING GRANT

Cedes another year of care to families already driving 11 miles for a dentist.
