Anchor · Divider · Prose

divider

Section boundary slide. Dark canvas with a single heading.

divider · Section 03

A divider gives the deck a place to breathe.

02

divider numbered

The stamp counts this divider for you.

divider light

The light divider trades the dark canvas for a bright, full-sentence waypoint.

divider qr

The payload bullet becomes a scannable code.

When NOT to reach for divider.

More than five per deck

Each divider is a hard context switch. Too many dilutes the signal and slows the audience. Group related content under fewer sections instead.

Section title that doesn't earn a section

If the next 3-4 slides aren't a coherent unit, the `light` variant (bright canvas, centered) is the right tool. Reserve the dark divider for genuine section starts.

Header or footer overrides

Don't blank the header or footer with `_header: ''` / `_footer: ''` on a divider. A divider keeps the deck's running header and its footer, the standing note (a "Confidential", a copyright), by the anchor-chrome rule (engineering/decisions/2026-11-08-anchor-chrome.md). Drop one on purpose with `no-header` / `no-footer`, or every band with `silent`.
