gift-card

A business card whose QR opens a Lattice gift link: a warm line, the code, and a PIN when the link is locked.

CONNECT · GIFT-CARD

Make your next deck with Lattice.

Scan to start. Up to $1 of AI is on the house.

When NOT to reach for gift-card.

Not for a slide you show

It is sized for print. On a projected deck, use the contact card with a web link instead.

Never print the link as text

The link is a working key. Keep it in its own bullet, where it becomes only a QR code.
