Avatars v2 · head coverings · earrings · clothing

Hijabs, turbans, caps, earrings and a wardrobe.

Four new traits, all opt-in: `!{Ada Okafor}` draws exactly the face it drew before.

headwear=

A head covering takes its own color and hides the hair under it.

EXECUTIVE SPONSOR

A hijab or a turban hides all hair.

- Hijab: 
- Turban: 
- The hair you wrote stays on the face, so removing the covering brings it back.

Caps and hats hide the fringe and any volume above it.

- Skull cap, beanie, kufi: 
- Baseball cap, forward and backwards: 
- Hair kept: 
- Volume hidden: 

Earrings sit on the ears of every face shape.

- Stud: 
- Hoop: 
- Drop: 
- A hijab hides them, and a bob covers the lobe:  .

`clothing=` is the cut of the top; `top=` is still its color.

- 
- 
- `crew` is the default, so a name that writes no `clothing=` is drawn as before.

All together

The traits compose: a wardrobe is one line per person.
