Fix demo · state markers

Six answers, and each one means the same thing everywhere.

Yes, partly, no, unknown, open, and does not apply — in every layout that draws a mark.

The six marks, read the same way in every layout.

- Yes — done, met, included
- Partly — in progress, limited
- No — failed, not met, missing
- Unknown — looked at, cannot be settled
- Open — not started, not assessed
- ~~Does not apply — out of scope~~

The legend under the cards now matches the cards.

What they leave out.

Included · Limited · Missing · Ask sales · Coming in Q3 · Not on this plan

A comparison table can finally say "no".

CRITERION	CHORUS	PRODUCTBOARD	NOTION	SPRIG
Speed	✓	✗	✓	✓
Auditability	✗	✓	?	✓
Calibration	−	−	○	✓
On-prem	/	/	✗	/

✗ is a tested "no". ? was tested and could not be settled. ○ has not been tested yet.

Verdict-grid: "no" and "not assessed" stop sharing a mark.

Vendor North

Speed · Audit · Adoption · Pricing

Fails the audit. Adoption data is disputed.

Vendor South

Speed · Audit · Adoption · Pricing

A mark in a sentence draws the same shape.

- Pen test ✅ passed on the second run
- Load test ⛔ reached 80% of target
- SOC 2 evidence ❌ rejected by the auditor
- Vendor SLA ❓ terms not disclosed
- Status page ⚪ copy not written yet
- EU region ➖ moved out of this launch

Write a mark in inline code and it draws the disc, wherever inline code can go.

Shape carries the answer. Solid discs are settled; the two hollow rings are not yet.
