Diagram · quoted fences

A diagram inside a quote

A Mermaid fence under `>` draws at its natural size, in the Studio and in the CLI's file alike.

A quoted diagram between two paragraphs

The paragraph above the quote.

The paragraph below it stays on the slide.

Another paragraph, so the slide has prose under the figure.

A quote with words around its diagram

KEY INSIGHT

The team signs off in three steps:

Each step has one owner.

A diagram under a list item

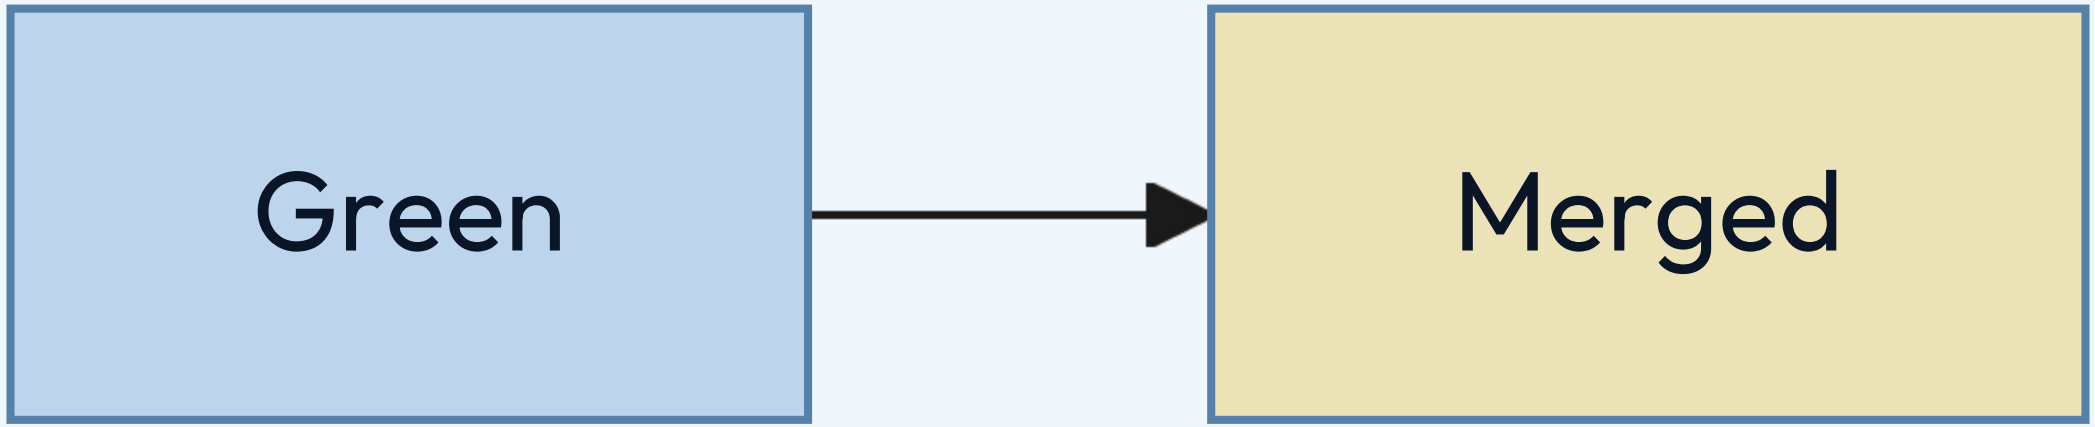

- First point, with its diagram:

- Second point.

A two-step quote

KEY INSIGHT

Short diagrams stay short: the height follows the drawing, not a fixed box.

What changed

- A quoted or list-nested figure sizes like the CLI's baked one
- The paragraphs after it stay on the slide
- The Studio's file and the CLI's file match byte for byte
