Typography · foundation · all orientations

Curated portrait type.

Three curated font scales — landscape, square, portrait — selected per slide. Not one landscape scale stretched by a multiplier. A board member reads this with their spectacles on, not squinting.

The body copy should breathe.

Every role keeps its hierarchy in the tall frame, because the portrait scale is *designed*, not magnified.

The body copy should breathe.

The lead point reads at presentation distance, full width of the column.

continues →

The body copy should breathe. (cont.)

A supporting point sits a step quieter but never collapses to fine print.

continues →

The body copy should breathe. (cont.)

A third closes the thought without crowding the frame.
