*Layout · Split · Mixed*

# columns

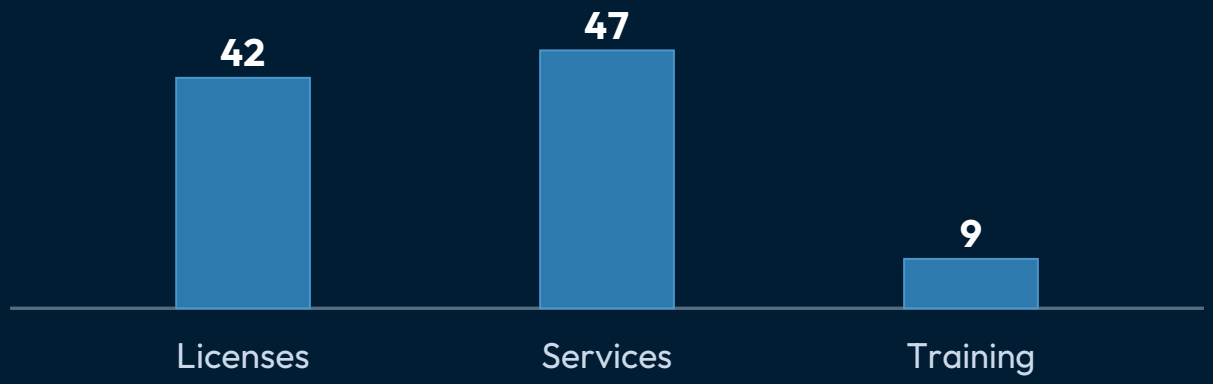

Two components side by side on one slide, at a ratio you choose.

*Q3 review*

# Services outgrew licenses for the first time.

REVENUE BY LINE

*$M, trailing four quarters*

WHAT CHANGED

- Services passed licenses in March
- Two renewals slipped to Q4

KEY INSIGHT

The mix shift is structural, not seasonal.

*Support · after the migration*

# The migration halved support tickets.

BEFORE

- 1,240 tickets a month
- 31 hours to first reply

AFTER

- 610 tickets a month
- 6 hours to first reply

*columns · stress*

# Two vendors cleared the security review.

CLEARED

- Northwind
- Contoso

FINDINGS BY VENDOR

| VENDOR | CRITICAL | HIGH | STATUS |
|---|---|---|---|
| **Northwind** | 0 | 1 | Cleared |
| **Contoso** | 0 | 2 | Cleared |
| **Fabrikam** | 2 | 4 | Rejected |

KEY INSIGHT

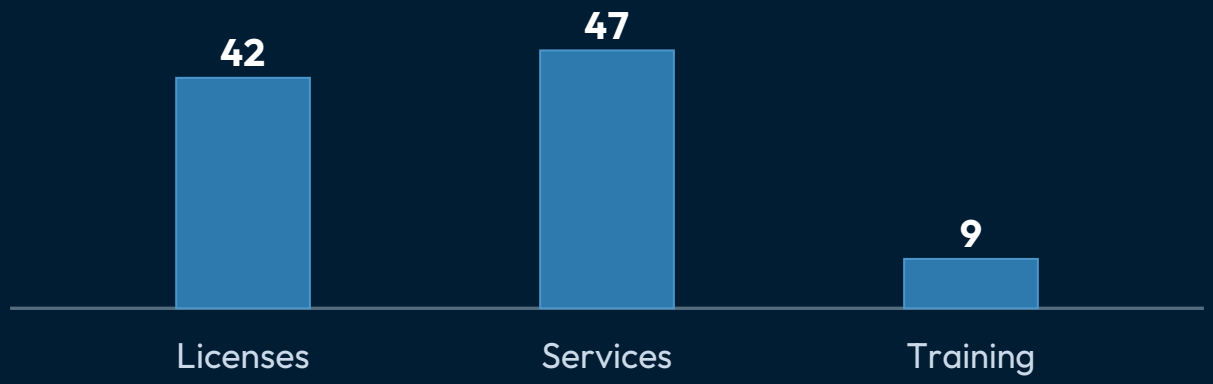

Fabrikam can re-apply after its Q1 fixes.

*Q3 review*

# Services outgrew licenses for the first time.

# When NOT to reach for columns.

**Two unrelated points**

Two panes are one argument. If the halves say different things, make two slides.

**A binary decision with a verdict**

Weighing two options and landing a recommendation is `split-compare`, whose verdict card this layout does not have.

**Three or more things**

A pane layout holds two panes. Three parallel items are `cards-grid` or `compare-prose`.
