

TYPOGRAPHY • VENUE: HALL

The room sets the size

Every slide renders at 1.5x. A slide too full for the room clips and is named, and the deck never shrinks itself to fit.

LATTICE · VENUE IS A FIXED SIZE

FITS · LIST-STEPS

Three steps read from the back row.

STEP 01

Plan

Reads the ticket and
writes the plan down.

STEP 02

Build

Writes the code and
the tests.

STEP 03

Hand off

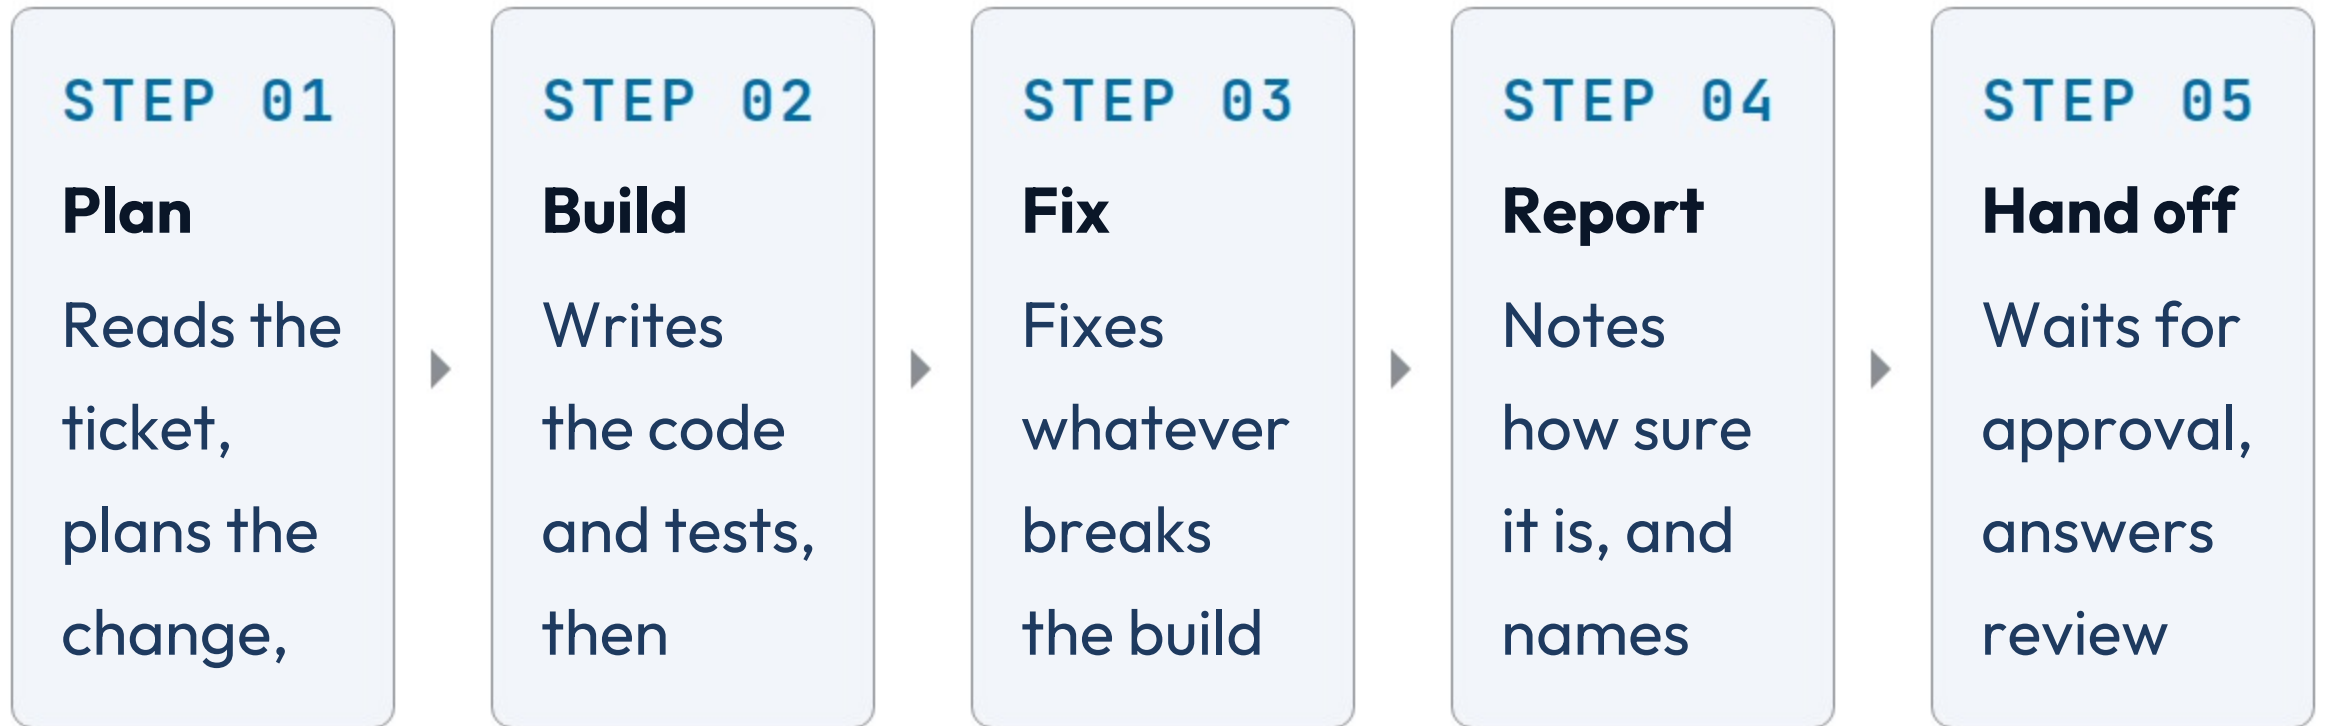

Opens the pull
request with notes.

Fits · 3 steps, the hall budget

LATTICE • VENUE IS A FIXED SIZE

TOO FULL • LIST-STEPS

Five long steps do not fit at 1.5x.

Clips • 5 steps, past the hall budget of 3

Content clipped

LATTICE · VENUE IS A FIXED SIZE

SPLIT · LIST-STEPS

Split: the first three steps.

STEP 01

Plan

Reads the ticket,
plans the change,
and writes down why
before anyone asks.

STEP 02

Build

Writes the code and
tests, then opens a
pull request with a
summary.

STEP 03

Fix

Fixes whatever
breaks the build and
explains each fix in a
commit.

LATTICE • VENUE IS A FIXED SIZE

SPLIT • LIST-STEPS

Split: the last two steps.

STEP 04

Report

Notes how sure it is, and names the parts it could not check.

STEP 05

Hand off

Waits for approval, answers review comments, and leaves notes for next time.

LATTICE • VENUE IS A FIXED SIZE

RETIRED • STEP AND LEVEL

One size, set by the author, on every surface.

PICK THE ROOM, THEN WRITE FOR IT

The venue is a promise
the deck keeps.

*Choose it in deck settings, switch it live
in Present, and split what does not fit.*
