

NEW COMPONENT • INVENTORY • GRID • PROSE

# The wall that vouches for you.

A grid of customer, partner, or funder marks — the social-proof slide every go-to-market and mission-driven deck reaches for, now a first-class layout instead of a hand-placed image.

# One layout, every industry's proof slide.

---

The credibility moment shows up everywhere — it just wears a different label.

LOGO-WALL desaturates the marks to one gray, so no loud brand outshouts a quiet one.

- Corporate calls it *trusted by*; nonprofits call it *our funders*; government calls it *participating agencies*.
- The `color` variant keeps brand hues for insignia and crests; `dense` packs a longer roster.
- Each mark can carry an optional name and pill below it when the logo alone doesn't say enough.
