# When NOT to reach for regulatory-update.

## Single rule's lineage

If the slide walks one rule from statute through case, use `authority-chain`. regulatory-update is a period digest.

## Past six rows

More than six items compresses the row gap and the citation chips run out of room. Split by jurisdiction.

## Missing summary or citation

Each row needs all three sub-items — citation, summary, effective date. Otherwise the row reads as rumor.

RELATED COMPONENTS

# See also.

`authority-chain` — single rule walked statute → regulation →  
guidance → case

`list-criteria` — flat enumeration of requirements without dates or  
citations

`list-steps` — lighter dots-on-a-spine sequence — the `timeline`  
variant

`list-tabular` — structured metadata per row but no regulatory  
framing
