CALLOUTS AND THE KEY

Notes go where the plot stays largest

The engine lays a heatmap out every way its notes and key can sit and keeps the one that leaves the grid biggest. Render this deck at 16:9, 1:1 and 4:5 to watch the notes move.

RETENTION · 2026 COHORTS

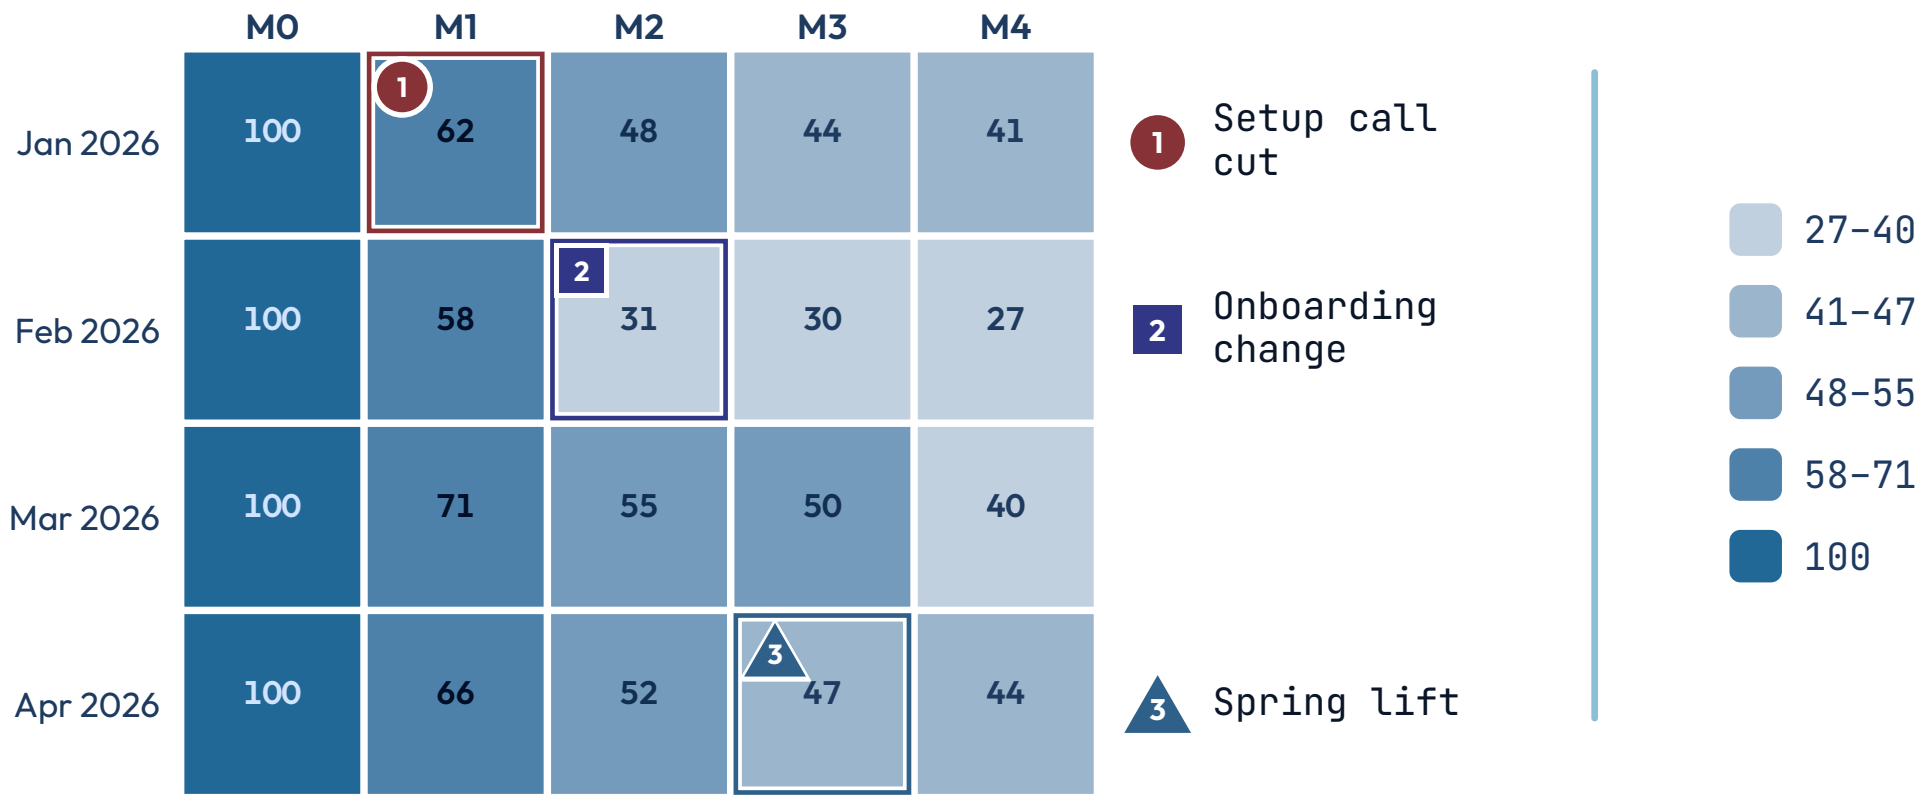

Retention drops hardest in month two.

Notes only · beside the grid when wide, under it when square.

RETENTION · 2026 COHORTS

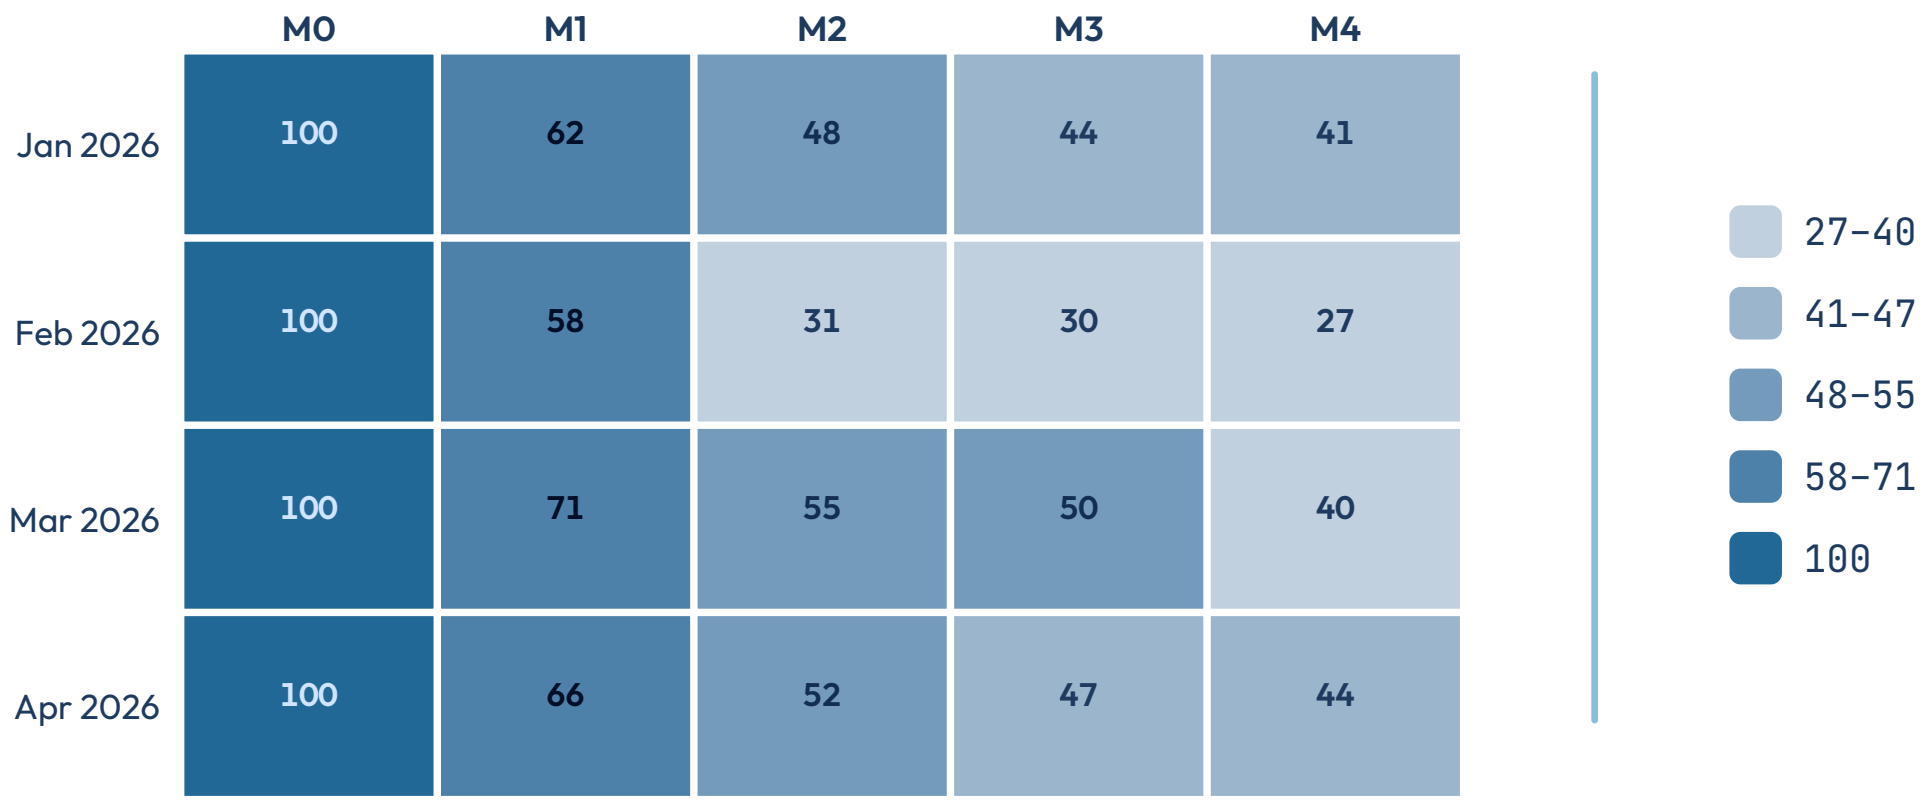

The key and the notes share the slide with the grid.

Notes and key · each takes the side that costs the grid least.

RETENTION · 2026 COHORTS

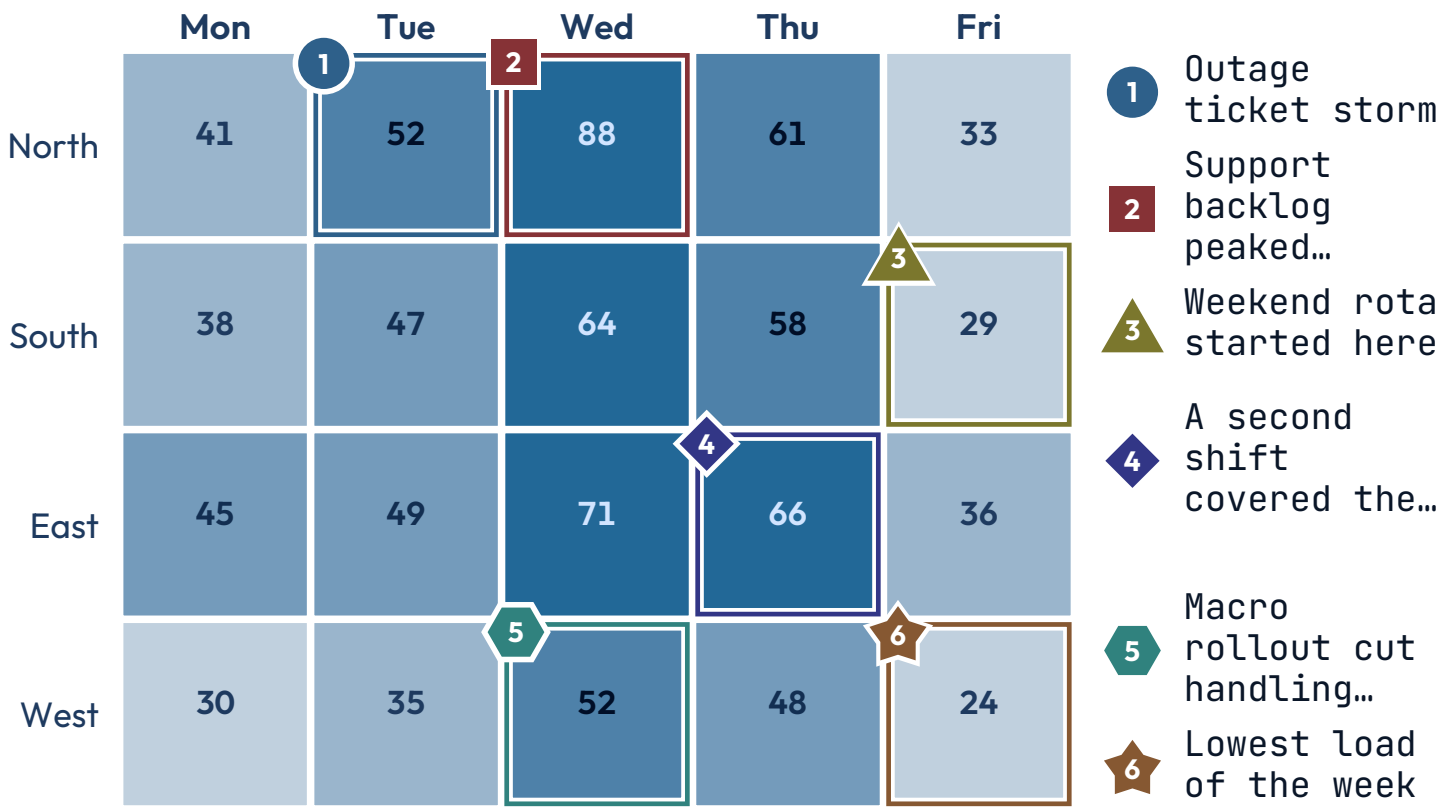

A key alone is placed the same way.

Key only · beside the grid when wide, under it when square.

SUPPORT LOAD · TICKETS PER DAY

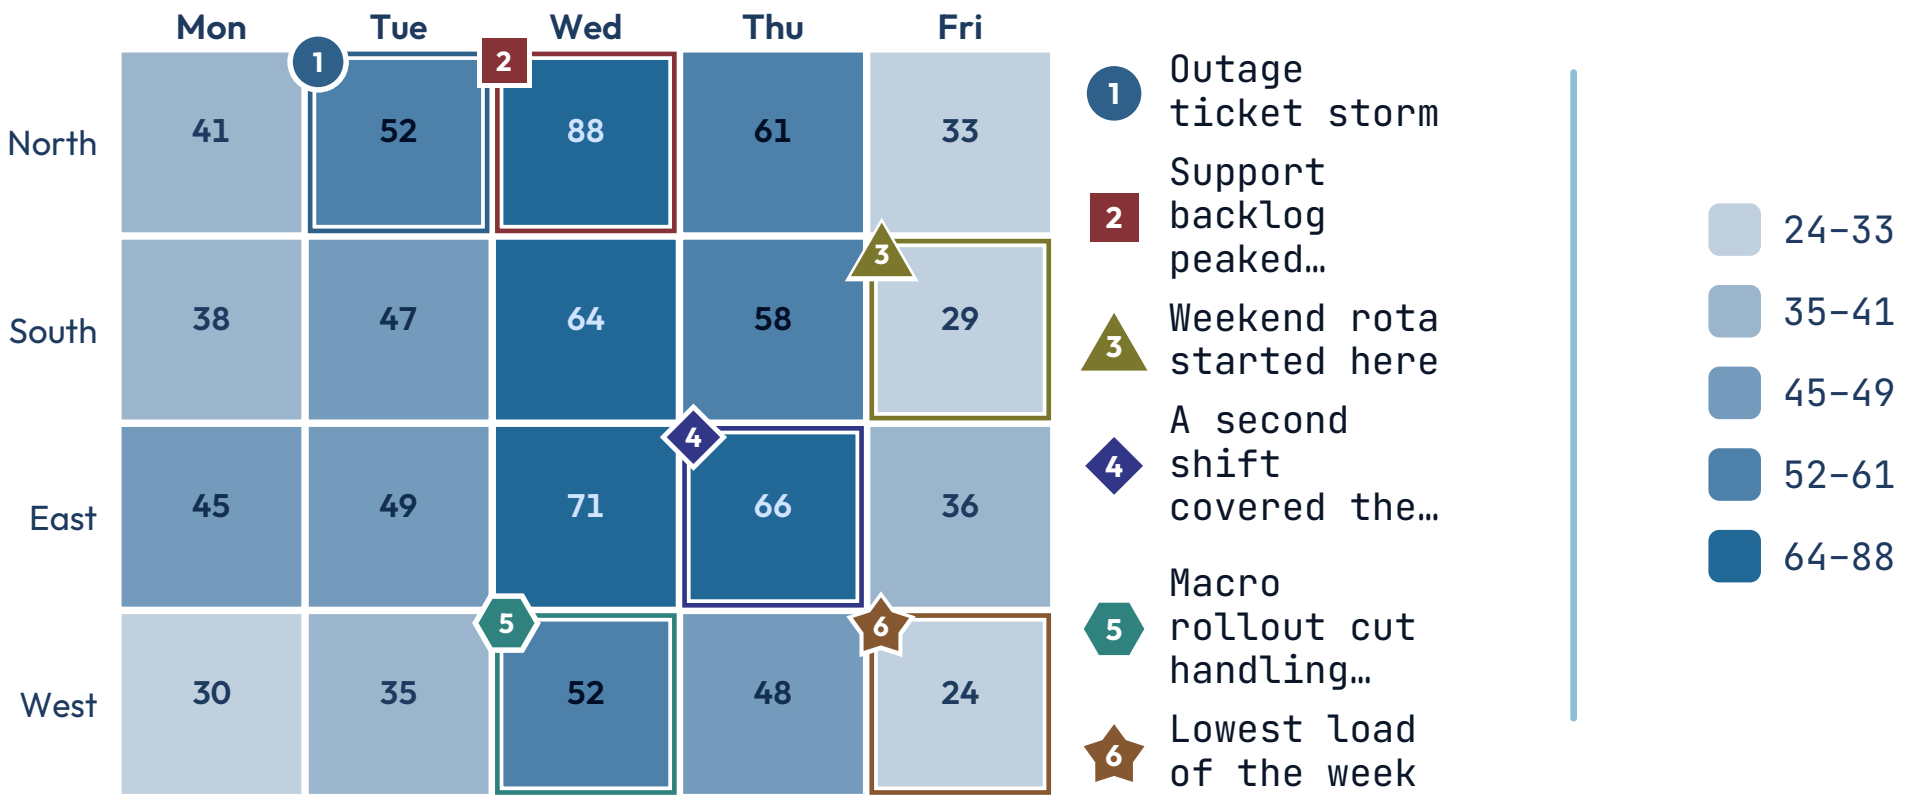

Six notes explain the week.

Six long notes · under the grid they run its width and set whole.

SUPPORT LOAD · TICKETS PER DAY

Notes and a key together, at their most crowded.

Six notes and a five-band key, at their most crowded.
