

FEATURE • THE NARRATION EXPLAIN LAYER

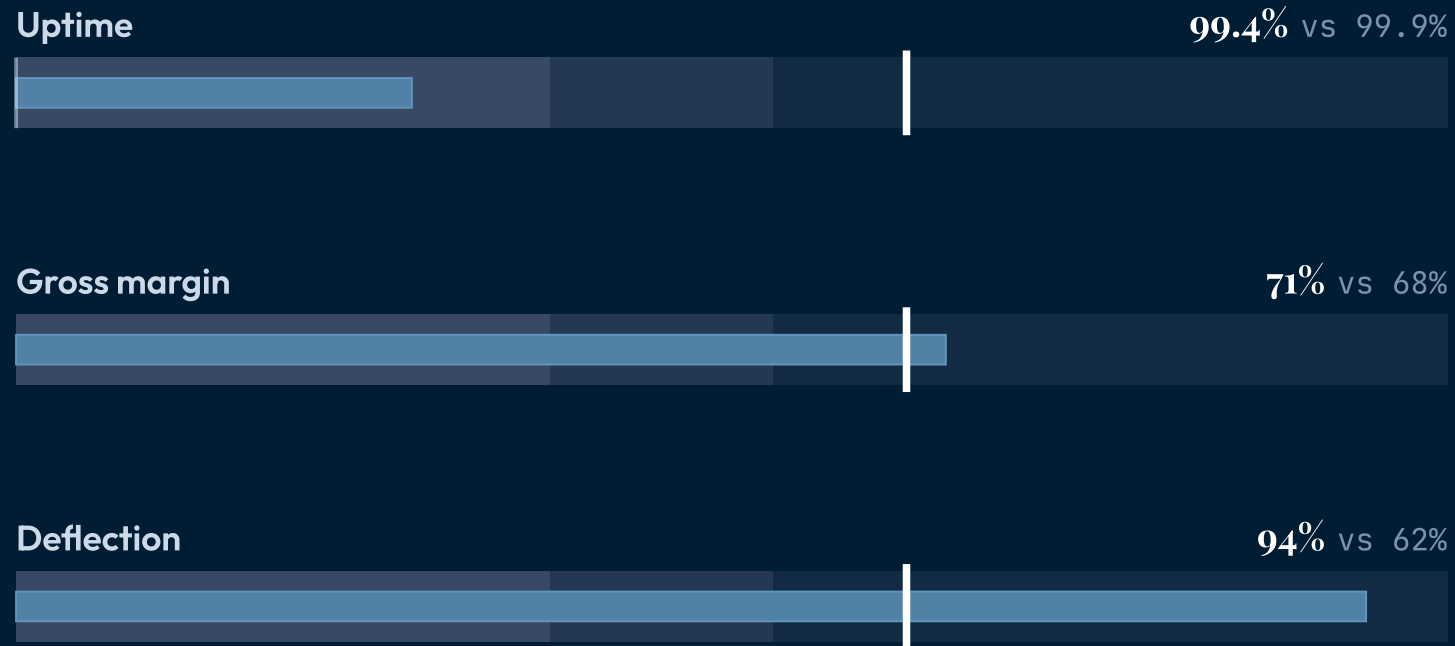

A chart read aloud is not a chart explained.

Every picture-bound chart now opens with what its encoding means, and three of them say what their numbers are *for*. Listen with the captions on.

Are we on plan.

A high baseline hides a real miss.

What the team called out this quarter.

The frame says what the bars measure.

The heading is still yours.

Narration owes the frame, the shape and the relation. The verdict on the slide is the author's, and it is not said twice.
