# kanban

Kanban board — columns of cards by stage.

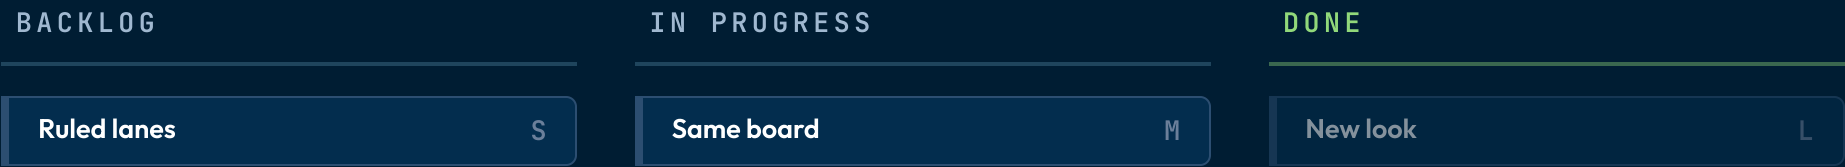

# The board tracks cards across lanes.

KANBAN KEYLINE

# keyline rules the lanes apart.

---

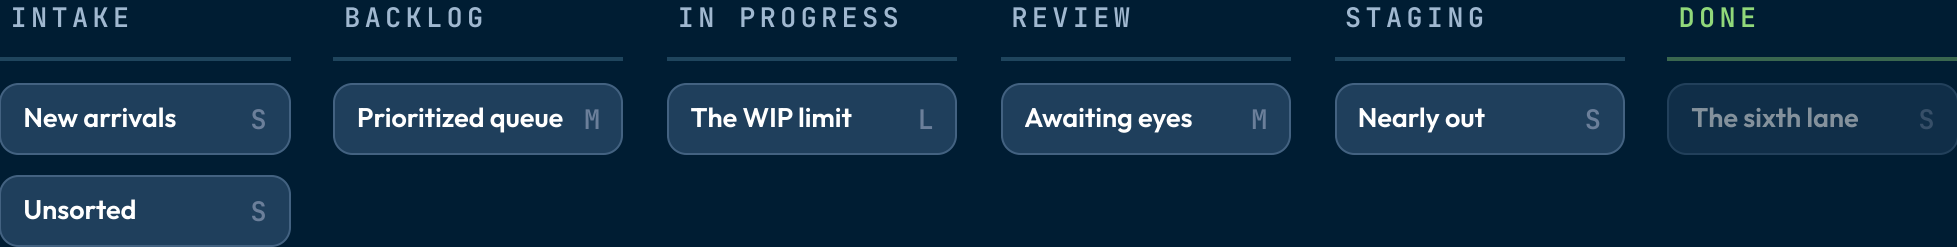

KANBAN TINTED

tinted colors each lane's wash.

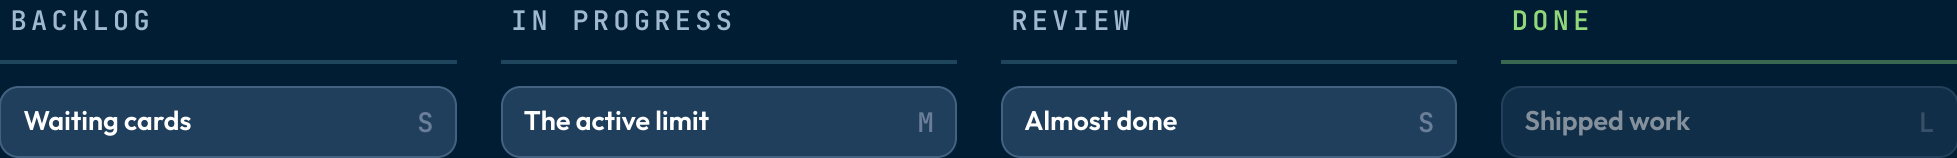

# Six lanes is the board's hard ceiling.

# The board tracks cards across lanes.

# The board tracks cards across lanes.

# The board tracks cards across lanes.

# When NOT to reach for kanban.

## Schedule, not status

If the question is when each task ships rather than where it sits today, reach for `ganttt` (spans) or `roadmap` (phases). Kanban is a snapshot, not a timeline.

## More than five lanes

Past five columns the cards compress and the column headers crowd. Group adjacent stages or split into two boards (e.g. by team) instead.

## Cards without meta

A board of bare titles wastes the layout's affordances. Add at least a size badge and a lane label so the audience can scan workload and ownership at a glance.

RELATED COMPONENTS

# See also.

`gantt` — schedule of overlapping tasks across lanes, not current state

`roadmap` — phased grid of deliverables across workstreams

`checklist` — single list of items with done/in-flight/planned states

`verdict-grid` — options scored against shared criteria, not stage-tracked
