

State chart vs. content we've never seen.

Browser-measured layout: nodes are sized by the real text engine, edges are drawn from measured rects. These slides try to break it.

Single-letter states.

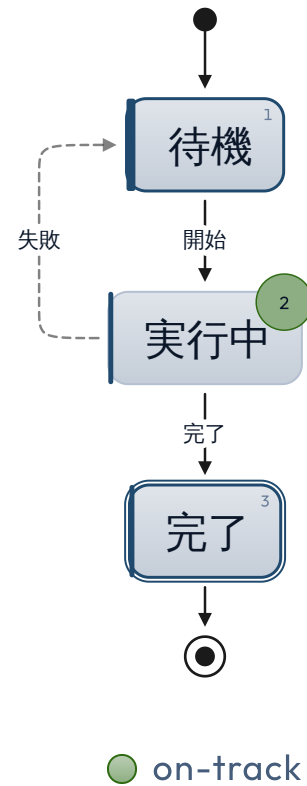

Long state names.

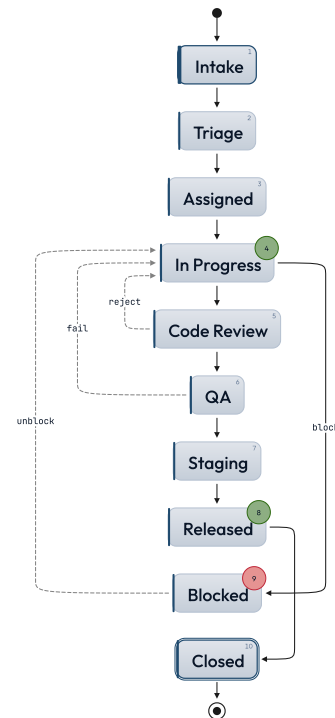

状態遷移

CJK state labels.

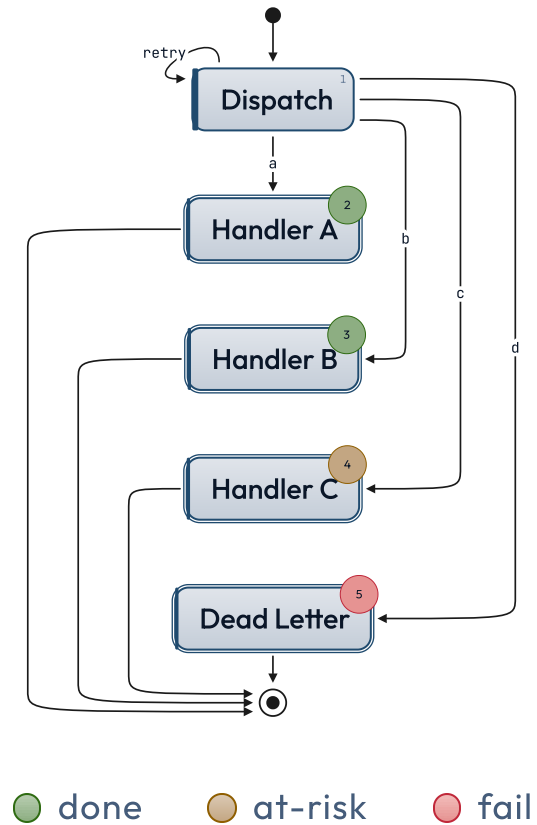

Ten-step pipeline.

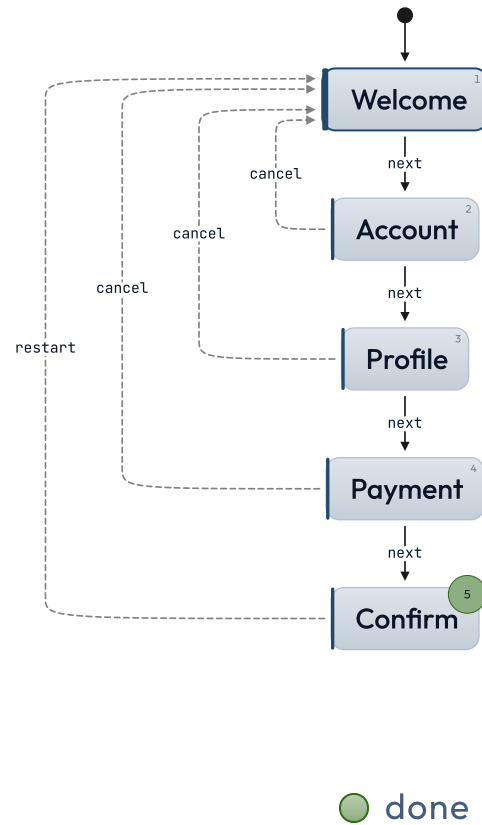

● on-track ● live ● blocked

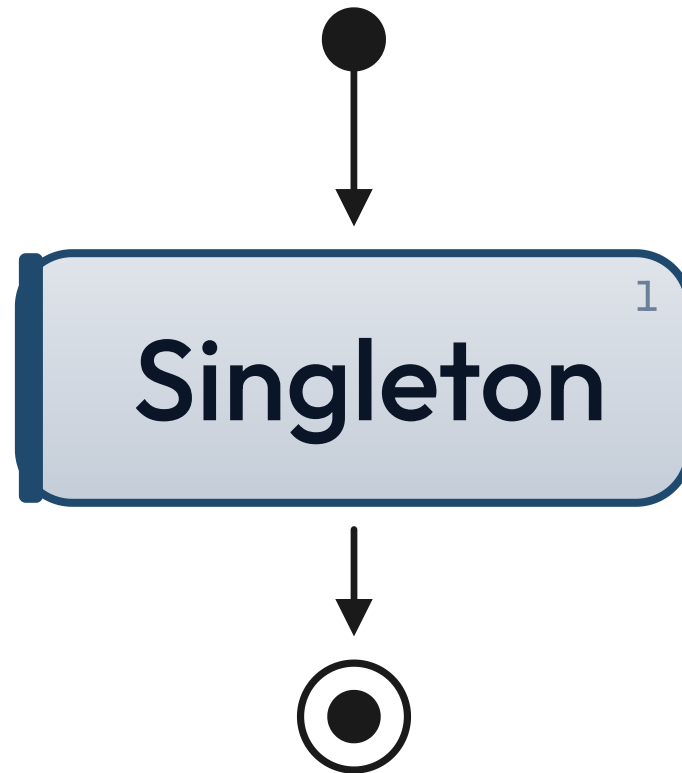

Router with many exits.

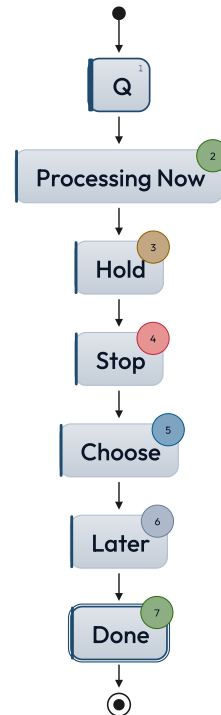

Wizard with escape hatches.

Degenerate: one state.

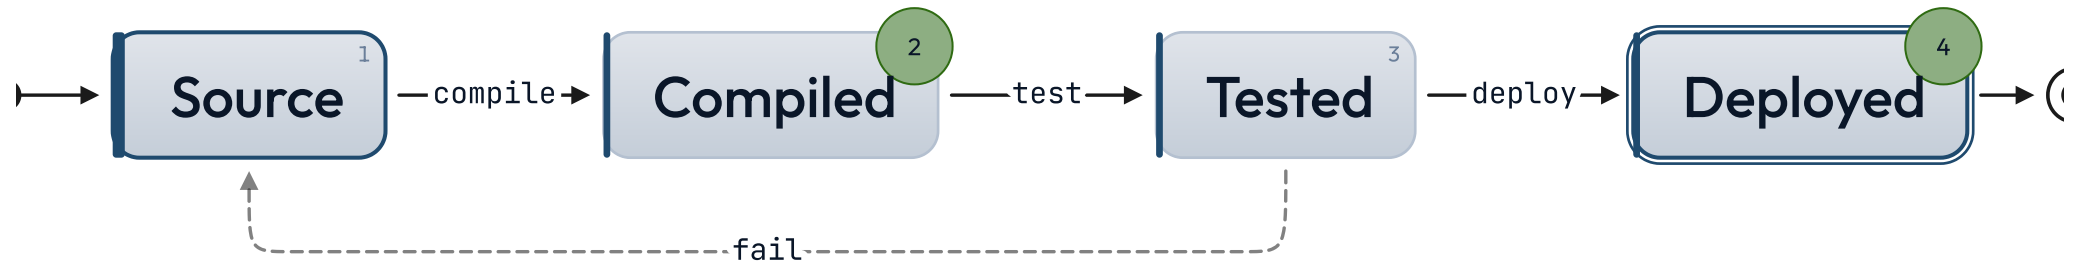

Status palette across widths.

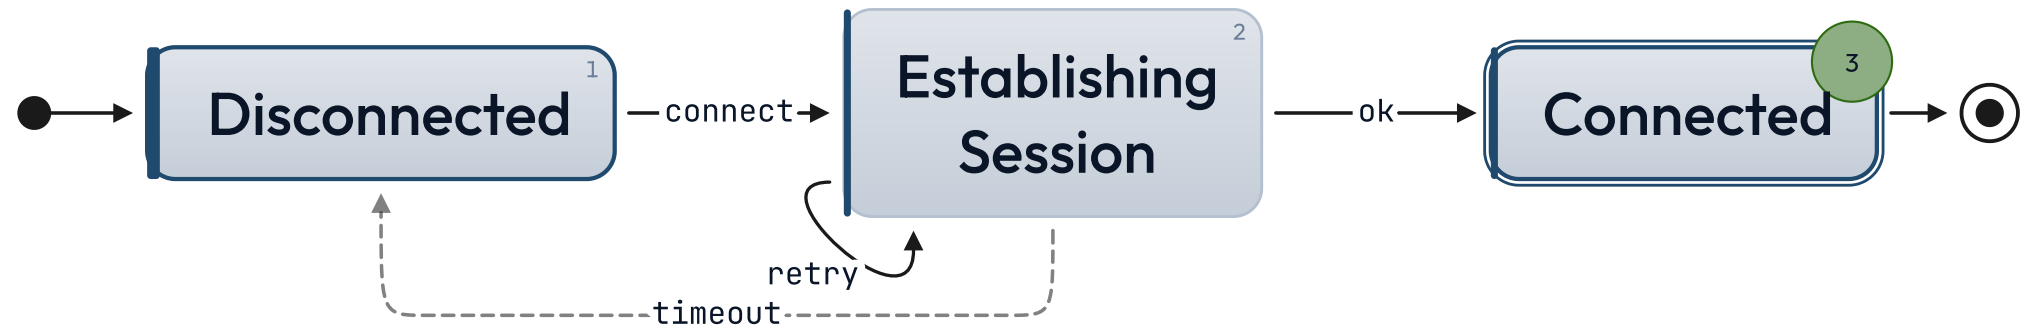

● on-track ● at-risk ● blocked ● decision ● deferred ● done

Left-to-right pipeline.

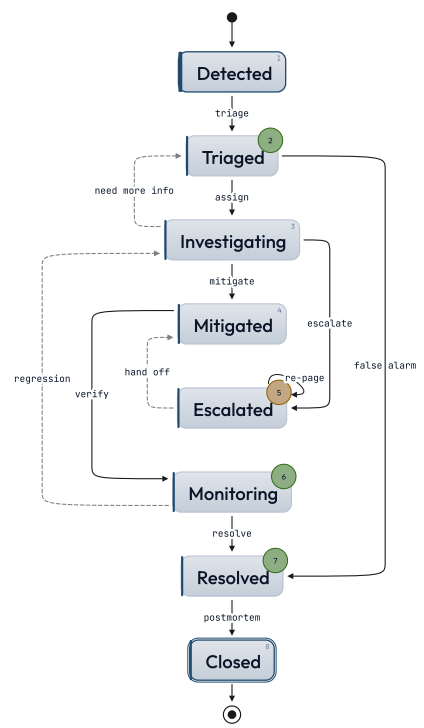

● on-track ● live

Connection (left-to-right).

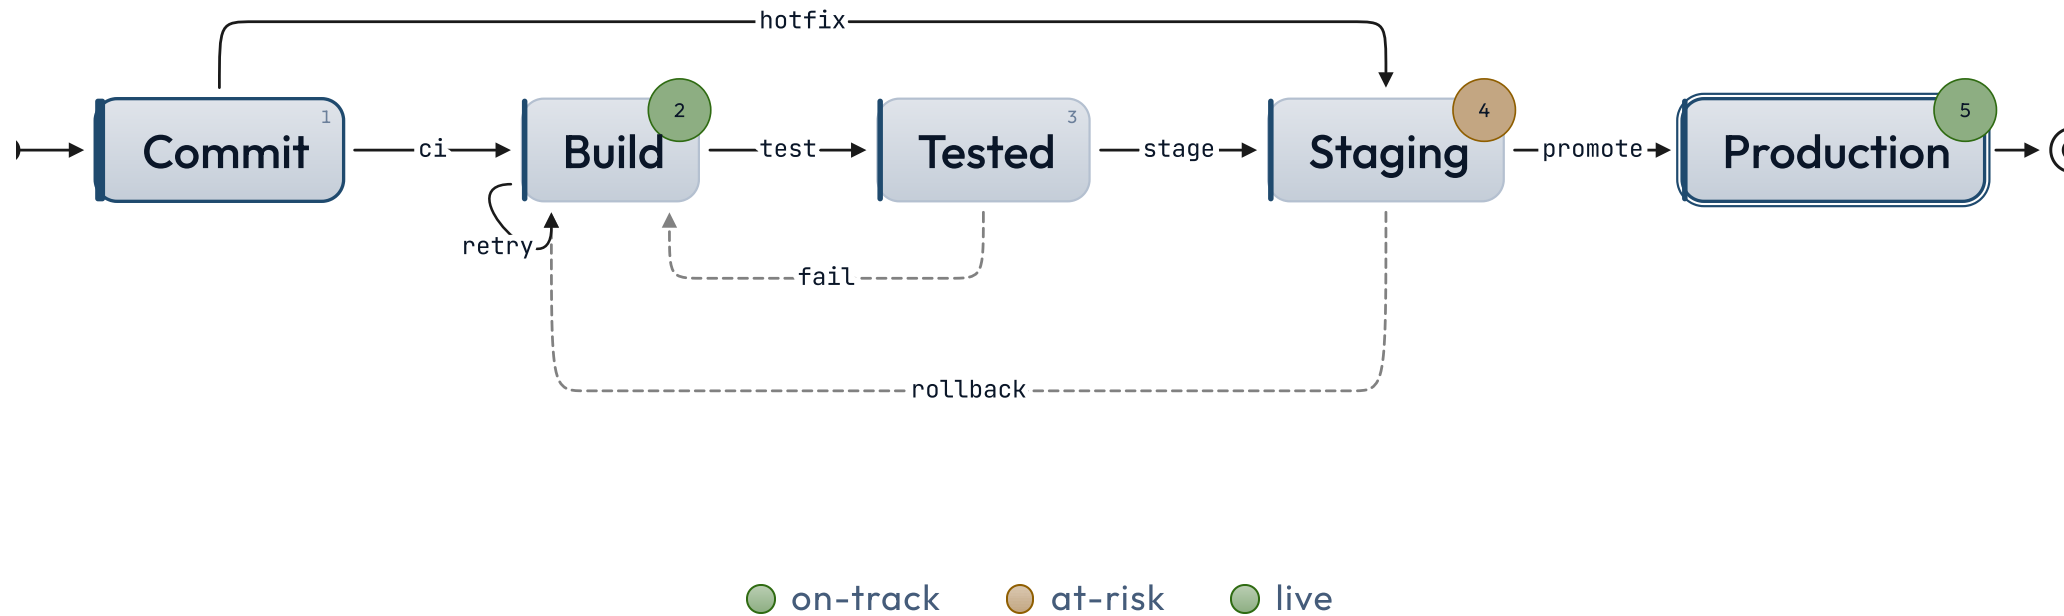

● live

Incident response.

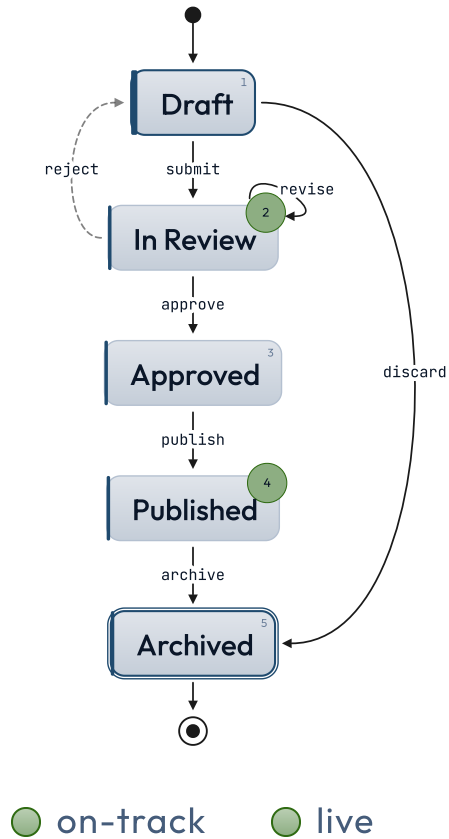

● on-track ● at-risk ● live ● done

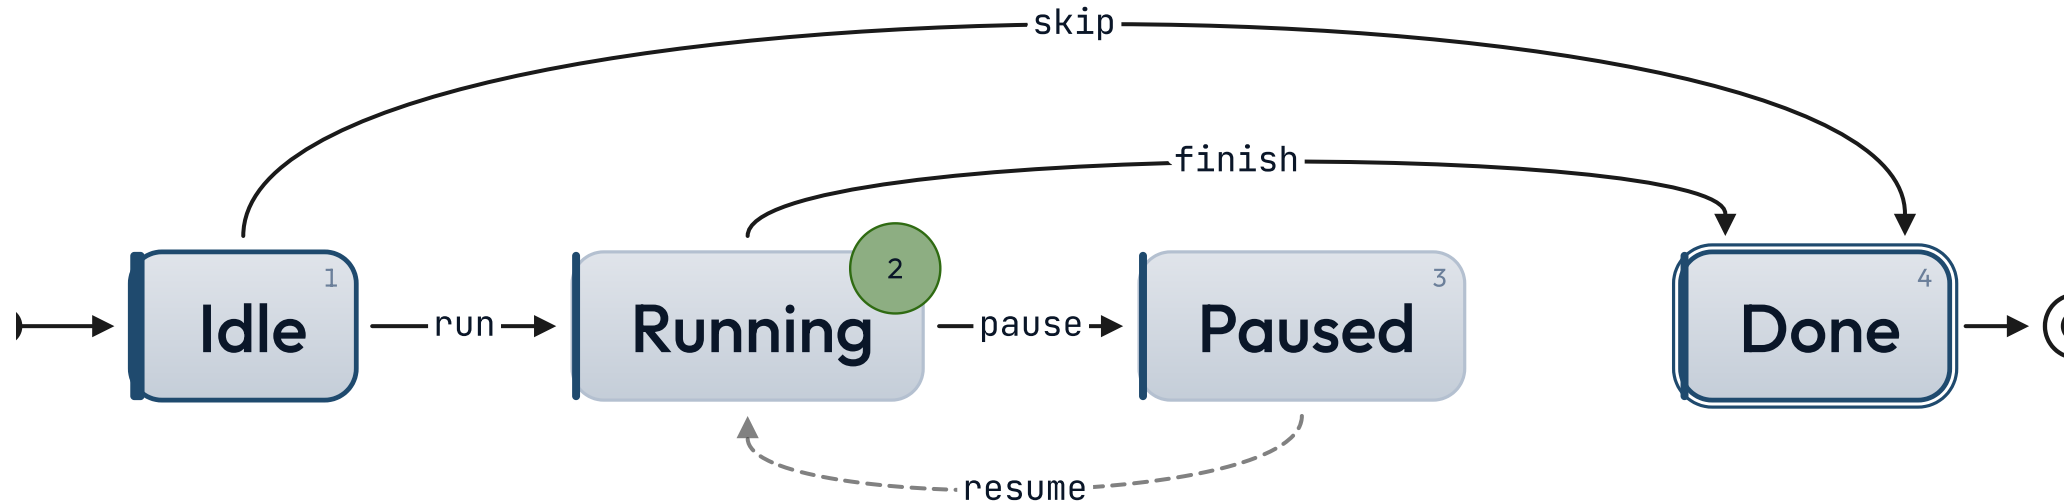

Build & release graph.

Document approval (curved).

Job runner (curved, lr).

● on-track
