

CHART • STATUS VOCABULARY

Status words agree

A status word colors the same way wherever the engine accepts it.

KANBAN · CAPITALS

A capitalized status now tints its card.

Capitals used to paint an untinted card.

Progress reads the word in any case.

Both at-risk rows share one color; capitals used to fall back to info.

A timeline pill keeps your spelling and the color.

Capitals used to paint the info fallback.

2026 Q1 .. 2026 Q4

Gantt spends the status word on the bar.

Gantt paints live as running work, apart from done.

A state chart puts it on the badge.

On track At risk

SLOPE · ENTITY STATUS

Slope colors the whole line.

Same word, same color.

*Six components, one rule: case folds,
and the pill keeps your spelling.*
