LEGAL · AUTHORITY-CHAIN

Authority chains line up, and the trail holds at every venue.

The tier-label rail is now one column shared down the chain, so every citation starts at the same edge. The trail stacks each column again, wraps a long citation, and lint names a word too long for its column.

COPPA · FIVE TIERS, NO GLOSSES

One long label used to bend the chain.

Was: the Enforcement row's citation started 12.6px right of the others at 1280px. Now: all five start at 289.9px.

COPPA · FOUR TIERS WITH GLOSSES

Enforcement sets the rail for every row.

STATUTE	15 U.S.C. §6501	Verifiable parental consent for under-13 data.
REGULATION	16 C.F.R. Part 312	The FTC rule; the 2013 rewrite widened identifiers.
ENFORCEMENT	Epic Games · 2022	A $245M order that read the rule broadly.
CASE LAW	Circuit reads	Courts defer to the FTC on scope.

The rail widens to the longest word in any label, Enforcement here, and every row takes that width.

COPPA · BRACKET

A two-word label wraps; it never widens the rail.

STATUTE	15 U.S.C. §6501 Verifiable parental consent for under-13 data.
REGULATION	16 C.F.R. Part 312 The FTC's implementing rule.
AGENCY GUIDANCE	FTC FAQ · 2020 Read with every consent order.
ENFORCEMENT	Consent decrees The rule as the FTC applies it.

bracket shares the rail too. A two-word label (Agency guidance) still wraps inside it rather than widening it.

COPPA · SHORT LABELS

A chain of short labels keeps its old rail.

STATUTE	15 U.S.C. §6501	Verifiable parental consent for under-13 data.
REGULATION	16 C.F.R. Part 312	The FTC's implementing rule.
GUIDANCE	FTC Six-Step Plan	Cited in every consent order.
CASE	Epic Games · 2022	A $245M consent order.

Short labels only: the rail stays at 14cqi and nothing moves from before.

COPPA · TRAIL AT LAPTOP

The citation now sits under its tier.
