

When NOT to reach for kanban.

Schedule, not status

If the question is when each task ships rather than where it sits today, reach for `gantt` (spans) or `roadmap` (phases). Kanban is a snapshot, not a timeline.

More than five lanes

Past five columns the cards compress and the column headers crowd. Group adjacent stages or split into two boards (e.g. by team) instead.

Cards without meta

A board of bare titles wastes the layout's affordances. Add at least a size badge and a lane label so the audience can scan workload and ownership at a glance.
