# Four tools, one clear winner.

## Chorus

-  Speed
-  Auditability

Strong recording; no decision log.

## Sprig + Log

-  Speed
-  Auditability

Meets every criterion. Recommended.

## DECISION

# Build or buy the data layer?

The difference is where the next 18 months go.

### BUILD IN-HOUSE

---

- Full control of schema
- 2–3 engineer-quarters

### BUY + CONFIGURE

---

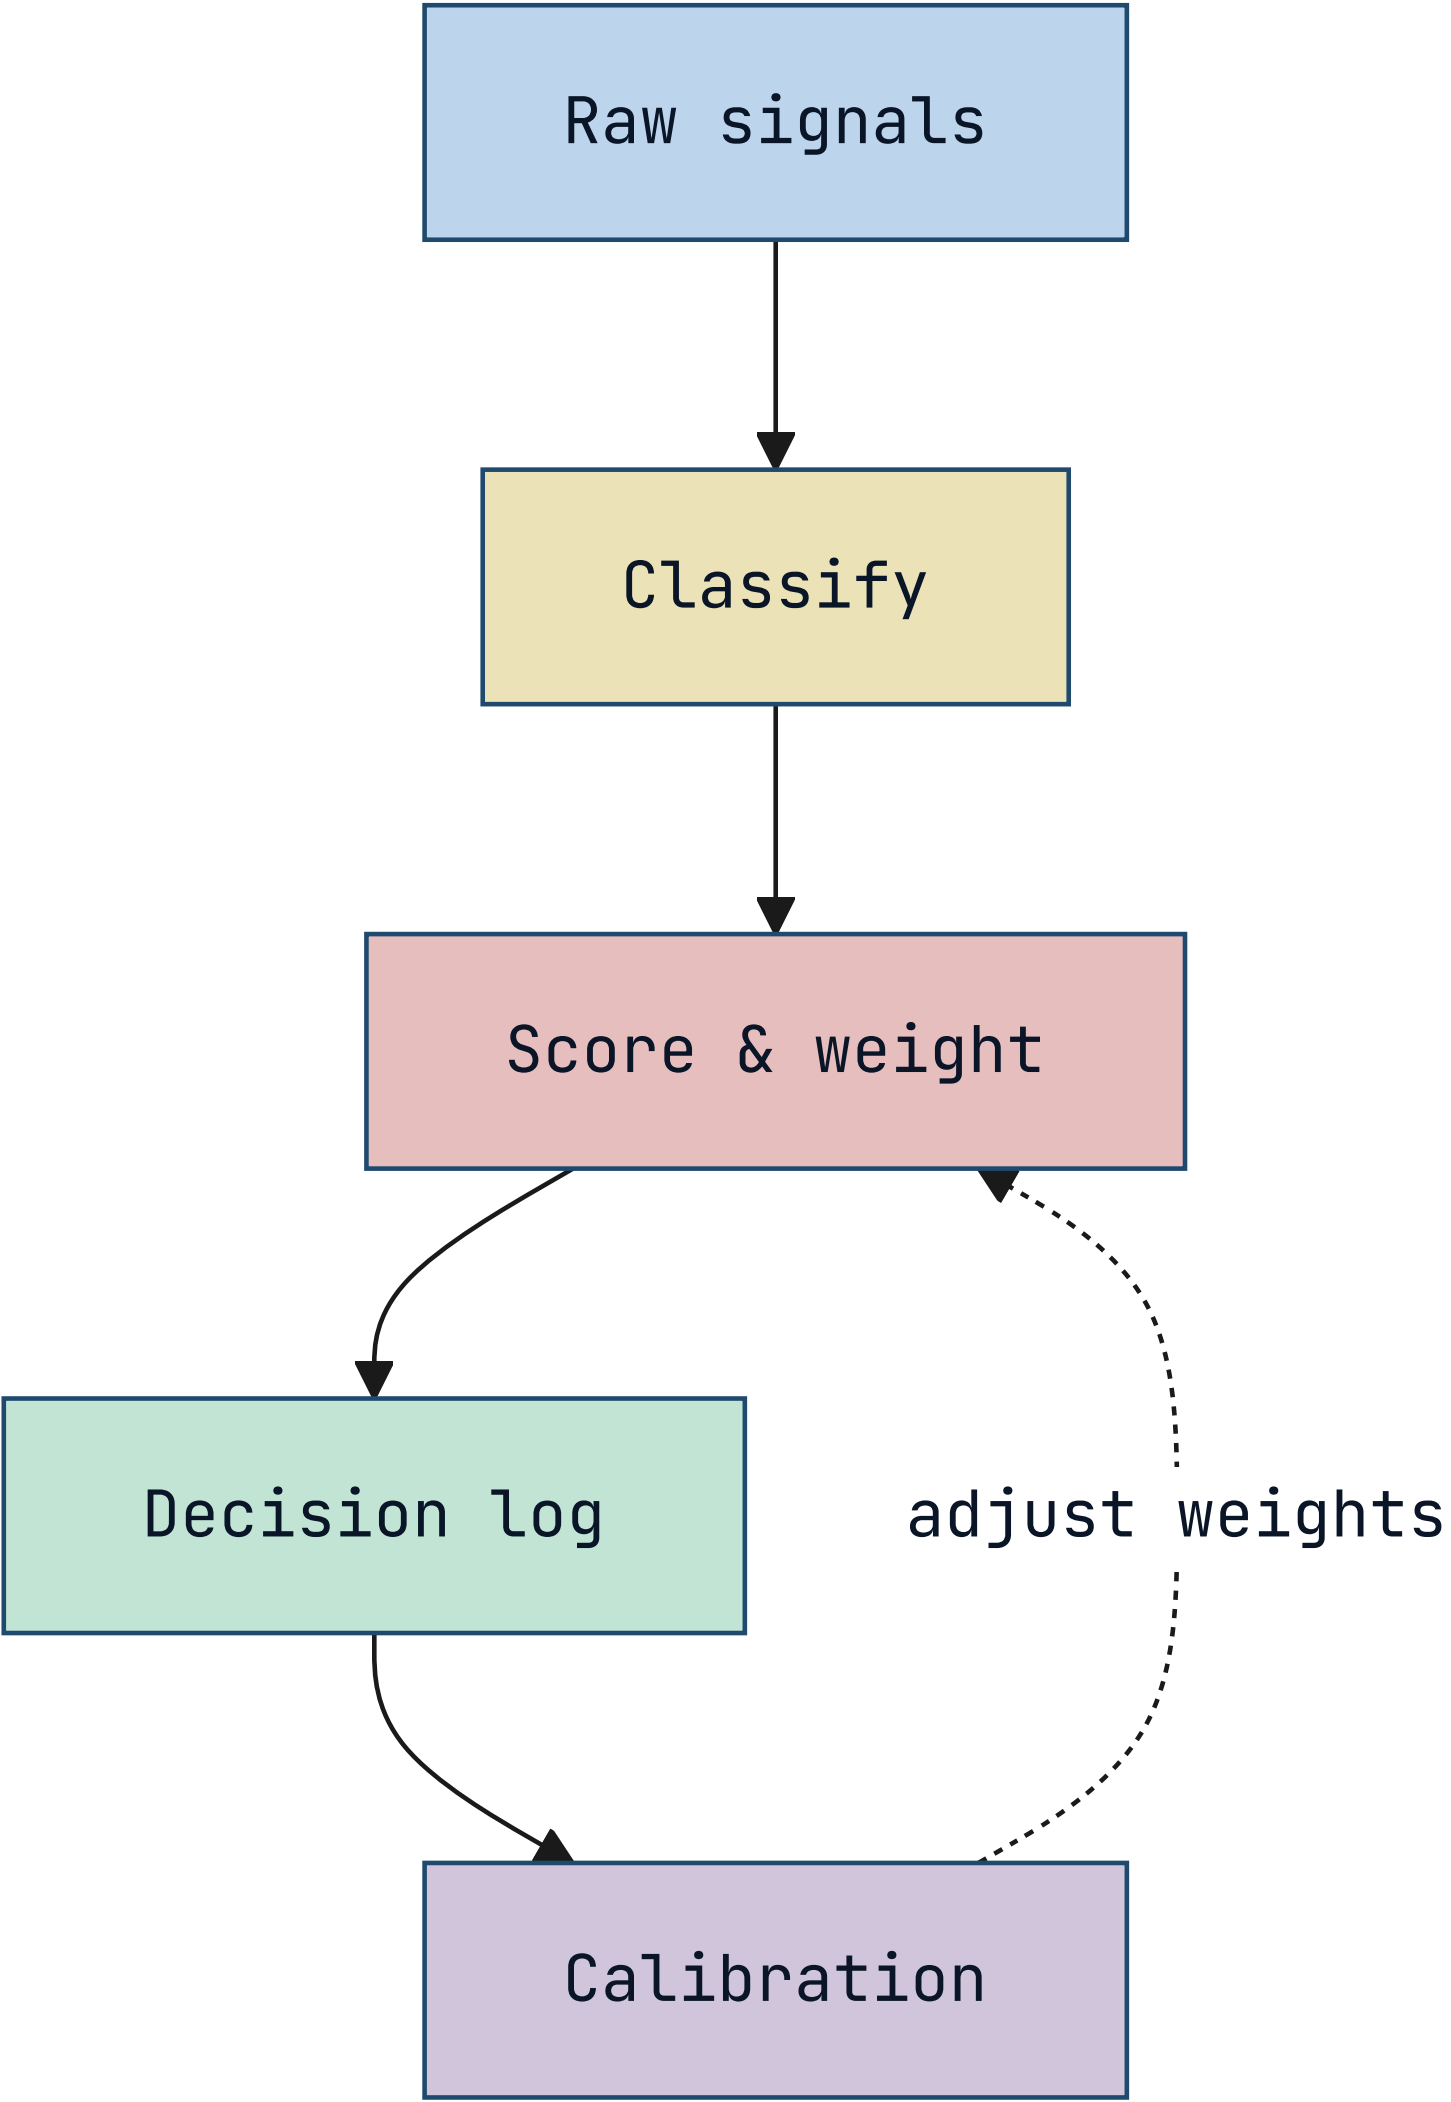

- Ship in 6 weeks
- Engineering goes to product

### RECOMMENDATION

Buy the infrastructure. Build the differentiation.

# A flow that reads top-to-bottom on a phone.
