PANES · MERMAID ORIENTATION

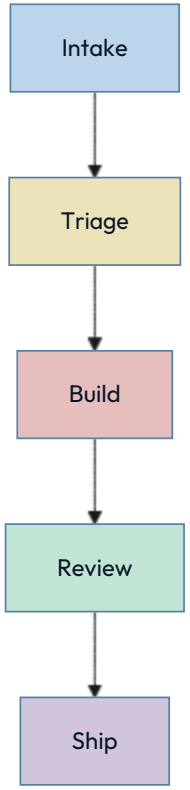

A diagram lays out for its pane

DELIVERY · THE FULL-SLIDE DIAGRAM

Five stages, left to right, as a slide draws them.

In a tall pane, the same flow runs down the page.

1

- Intake takes a day
- Review holds work for a week
- Ship is weekly

1

DELIVERY · A WIDE PANE

Two teams share the same five stages.

1

Platform ships Mondays

Apps ship Thursdays

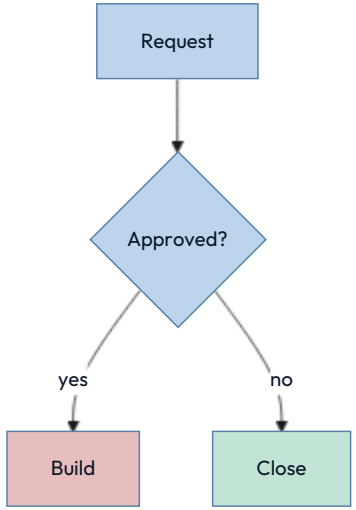

1

KEY INSIGHT

A 65% pane is wide, so the flowchart keeps the author's direction.

DELIVERY · A VERTICAL SOURCE

A top-down flowchart needs nothing from the pane.

1

Most requests pass on the first review

A closed request can be filed again

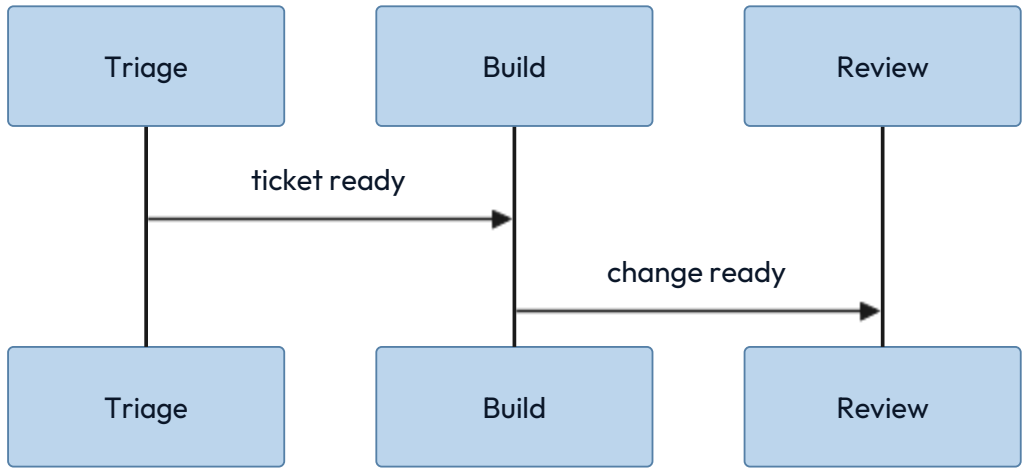

1

KEY INSIGHT

Only a left-to-right or right-to-left flowchart is turned; every other diagram keeps its source.

DELIVERY · A SEQUENCE

The hand-off is two messages.

1

Triage owns the ticket until Build accepts it

Review sees only finished changes

1

THE CLI AND THE LIVE PREVIEW READ THE SAME STAMP

The pane decides the direction
