

COMPARISON • EVIDENCE • INVENTORY

Cards that fill a box now use it

Five layouts were handed the full height of the stage and pinned their content to the top of it.

Two of them wanted the fix on the row, not the card.

A verdict card distributes the height the row gives it.

THE PICK, STATED PLAINLY.

The chosen option leads with the verdict treatment and the reason it won, in one breath.

THE ROAD NOT TAKEN.

The alternative keeps its honest case — a decision against a straw man persuades no one.

Every quadrant is half the stage whether or not it needs to be.

High impact · Low effort.

Low impact · High effort.

Time sinks
One suffices

A row of peers keeps its titles level.

Content-height rows.

The line takes what its tallest card needs, and nothing more than that.

Equal within the line.

Cards still stretch to each other.

Titles stay put.

Center each card alone and this title drops below its neighbors.

One gutter.

Rows sit `gap` apart, like the columns.

The same correction, on a scored grid.

Center the card.

✔ Void gone ✖ Titles level

Empties the card, then staggers the option names against each other.

Stretch the row.

✖ Void gone ✔ Titles level

Honest alignment, 35% empty.

Center the rows.

✔ Void gone ✔ Titles level

Content-height lines, one gutter.

A stat is a tile, not a panel.

The numbers the row was built to carry

A ledger aligns its figures with the first line of the label.

01	Signal modernization	Replaces 14 interlockings past their design life.
02	Track and structures	Clears 22 slow-orders and four at-risk bridges.
03	Rolling stock overhaul	Extends service life on 90 rail cars by 15 years.
04	Power and substations	Replaces three substations running beyond peak capacity.

The defect is declarative, so the fix is a declaration.

01

Where the void lives picks the property

A definite height takes `justify-content`; a stretched card takes `align-content`.

02

The axis picks it again, per family

The same list is a column at portrait and a row at square.

03

A threshold cannot draw the line

Past 19% slack, 2,908 cards are one continuum.

04

The computed style can

All 350 flagged cards compute `flex-start`; no centered card is flagged.

ONE CSS PROPERTY EACH – NO REGISTER, NO MANIFEST FIELD, NO RUNTIME MEASUREMENT.

Five cells fixed, one retired.
